The Common Council Does Not Want Them.

THE PROJECT KILLED AT LAST NIGHT'S MEETING.

Mayor Courtney Vetoed the $10,000 Loan Resolution.

The M. M. A. picture project was killed in the common council last night. Councilman White asked that the resolution be taken from the table and his request was granted by a vote of 14 to 8.

Then came a motion from Mr. Hunton to indefinitely postpone action on the resolution. The motion was opposed by Mr. Hounsell who said the council had chewed over the matter long enough and therefore he believed in referring the matter to the aldermen.

Mr. O'Hare objected to reference to the upper board and said the matter should be settled by the councilmen.

Mr. Nay wanted to know if the city would be any poorer for purchasing the portraits. "The money does not go out of the city," said he, "but would go into the pockets of Lowell citizens who have done much to build the city and make it what it is. The society is now somewhat run down and those who have borne its expenses can no longer afford it."

Mr. Drewett and Mr. George opposed the purchase and so did Mr. Miskella who urged immediate action on the resolution and made a strong plea to the councilmen to vote against it.

The resolution was then defeated on a tie vote, 11 in favor and 11 against.

Resolutions were passed to transfer $10,939.29 from the appropriation for paving to that for roads and bridges; $1500 from state aid to soldiers' relief appropriation; $15,000 to pauper fund from the appropriation for interest; $12,500 from the reserved fund: $10,000 for health appropriation and $2500 for lighting. Also to take the amount due from the commonwealth on account of the corporation tax, $65,000, to be divided as follows: Schools, $25,000; fire department, $15,000; pauper, $10,000; lighting, $6500; police, $5500; health, $2000; commons, $1000.

The resolution to borrow $50,000, the money to be spent, $30,000 for schools, $10,000 for police, $5000 for lighting and $5000 for fire department, received its final passage.

Mayor Courtney vetoed the resolution to borrow $10,000 for the Wilder street bridge and for work on the Pawtucket street grade crossing. He expressed the belief that it is better to have a separate temporary loan for the grade crossing work and that it should be $20,000 inasmuch as the railroad will pay 90 per cent. of the cost of abolishing the grade crossing.

The veto was sustained.

Mr. Hunton said he had heard on good authority that it was the duty of the Boston and Maine railroad to repair the Wilder street bridge and a motion that the city solicitor be requested to look the matter up, passed without dissent.

It was voted to accept the sidewalk in front of the premises of A. D. Mitten at Powell and A streets.

Petitions asking that Dunfey street, Avon and Mt. Hope streets be laid out and accepted, were given leave to withdraw.

DEATHS.

SULLIVAN—Nellie Sullivan, aged 32, died Monday of heart disease at the home of the sister Mary, 14 Marshal street.

HOWARD—Silas Howard, aged 69 years, died yesterday at the home of his daughter, Mrs. John M. Thornley, 42 Marginal street.

Lost.—On Merrimack street, a lady's gold watch, with chain and charm. Finder will be rewarded by calling at Sun office.

Merit

Made and Merit Maintains the confidence of the people in Hood's Sarsaparilla. Its medicine cures you when sick; if it makes wonderful cures everywhere, then beyond all question that medicine possesses merit.

Made

That is just the truth about Hood's Sarsaparilla. We know it possesses merit because it cures, not once or twice or a hundred times, but in thousands and thousands of cases. We know it cures, absolutely, permanently, when all others fail to do any good whatever. We repeat

BRIGHT HOPES FOR BRYAN

Chairman Campau Predicts Victory With Great Majority.

Based on the Reports From Every State Chairman—Mr. Bryan Receives an Overwhelming Reception at Chicago—He Made Several Addresses to Big Crowds—Concert to Cheer Up McKinley—Williams Welcomed Home With Big Demonstration.

Chicago, Oct. 28.—Chairman Campau, of the Democratic national campaign committee, yesterday received telegraphic reports from each state chairman in the Union, giving estimates based on the latest information as to how the different states will record their votes next Tuesday. This is the last formal report that will be made by the chairman of the different state committees. Mr. Campau said:

"The Democratic national committee awaits the result of next week's election with serene confidence. William J. Bryan will be elected by the largest popular majority given any president in a quarter of a century. He will have more than 300 votes in the electoral college. Our reports from the middle western states show the effect of his wonderful campaigning tour through them. His majorities will be increased by many thousands, as a result of his great journey. Illinois, Michigan, Indiana, Idaho and Minnesota are absolutely safe, and our chance of success in Ohio and Wisconsin are more than flattering. The ever rising tide of enthusiasm for the great cause and the great leader of the common people, will sweep those states, along with their sisters, already won.

"Senator Gorman, one of the most astute political leaders of the Union, guarantees Maryland. Our reports from Kentucky are that Republican monopoly and Democratic treason will be outvoted by more than 40,000. The desperate and despotic effort to coerce and buy the American people is doomed to dismal and humiliating failure. The solid south and the silver west will join hands in impregnable alliance at the polls. The great middle west is with them in an invincible union. Our intrepid leader is sure to get a magnificent victory. These states will give their votes for him, without a shadow of doubt:

"Alabama, 11; California, 9; Florida, 4; Idaho, 3; Indiana, 15; Kansas, 10; Iowa, 13; Michigan, 14; Mississippi, 9; Montana, 3; Nevada, 3; North Dakota, 3; South Carolina, 9; Tennessee, 12; Utah, 3; Washington, 4; Wyoming, 3; Arkansas, 8; Colorado, 4; Georgia, 13; Illinois, 24; Iowa, 13; Kentucky, 13; Maryland, 8; Minnesota, 9; Missouri, 17; Nebraska, 8; North Carolina, 11; Oregon, 4; South Dakota, 4; Texas, 15; Virginia, 13; West Virginia, 6. Total, 283. In addition our chances of success in these states are far better than those of the Republicans: Delaware, 3; Ohio, 23; Wisconsin, 12. Total, 38.

"It has been a long, hard campaign, but the people's cause has never ceased in its steady march to victory. Success is now in plain sight. The brag and bluster of the Republican national committee, in claiming 350 electoral votes, is shown in including such states as Texas, Idaho, Utah and Montana, where the majority for Bryan can only be measured by considering almost the whole voting population for him."

Mark A. Hanna has received the final reports of the chairmen of the state committees of Iowa, Kentucky, Minnesota, Michigan and Tennessee. All the state chairmen claimed that their states were safely for McKinley.

The Republican national committee yesterday issued a document in the form of a statement signed by Chief Arthur of the Locomotive Engineers, Grand Master Sargent of the Locomotive Firemen and F. W. Arnold, secretary-treasurer of the same organization. The statement is a denial that they are in favor of a "proclamation" issued, in which they are made to appear as being in favor of free silver. The facts of the case seem to be that three years ago they signed a memorial to congress, in which they favored free silver, and now this document has been put in circulation. Their explanation is given as follows

"No matter what our opinions may have been on the money question at the time of our signing the memorial, nearly three years ago, we have learned enough since on the subject to warrant us in denouncing the attempt at free coinage of silver at 16 to 1, believing it to be directly against the interests of labor, and also believing that under a condition of free coinage this country will be subjected to one of the most frightful panics that any country in this world has ever seen."

While the Democratic parade in honor of Mr. Bryan was passing the corner of Michigan avenue and Monroe streets yesterday, several eggs were thrown at it by young students in the Metropolitan Business college. None of the eggs came near Mr. Bryan or his wife, and neither of them knew of the episode until after the parade was over.

All sorts of stories were current about the affair, one of them being that Mrs. Bryan was struck with an egg, another that her carriage was hit. Neither of these stories were true, however. The first egg thrown at the parade came from a boy standing on the sidewalk in front of the Powers building, in which the Metropolitan Business college is situated. The egg was, to all appearances, thrown at the parade generally, and at no particular individual, as it was not hurled with any violence. A policeman, who witnessed the act, made a rush for the youngster, who darted up the stairway into the building. A second officer joined the first, and as the two ran for the doorway, several more eggs were thrown from the windows of the business college. The Cook County Marching club, which was escorting Mr. Bryan, received the bombardment, and several Prince Albert coats and glossy black tiles were scattered with yellow. One or two eggs struck the sidewalk, and the crowd was decorated accordingly.

Later in the afternoon a delegation from the Cook county Democracy descended on the college with every symptom of hostility, and demanded that the students who had done the throwing be turned over to it. They held possession of the college for a time, and finally left without learning who the miscreants were. The police had no better success, and Mr. Powers, the owner of the building, who is also the president of the college, said that he did not know who had thrown the eggs, although he admitted that they came from students in his institution. He was much distressed by the occurrence, and declared if he knew who had done the work he would have no hesitancy in turning them over to the police. Later in the day, a reporter for a morning Republican paper, while looking up the facts in the case, was severely beaten by a party of men who had taken part in the parade.

"I would be very glad to hear that the police have arrested those who insulted Mr. Bryan," said Chairman Hanna. "Whatever may have been their motive, the act was a most disgraceful one, and deserves the condemnation of every right-minded person. I hope the authorities will investigate the case fully, and properly punish the guilty ones. The Republican management have no sympathy with the people who engage in business of this kind."

Mr. Bryan arrived in Chicago at 3:30 p. m., over the Alton road, and was met at the depot by a large crowd. The Cook County Democratic Marching club and several silver clubs, with a large number of bands and drum corps, were waiting for him on Canal street, and as soon as he appeared the march was taken up for battery D, on Michigan avenue. A short parade through the downtown streets preceded the arrival at the battery, entering the city from Brighton park, where Mrs. Bryan appeared on the platform and distributed flowers. There were crowds at every street crossing until the Union depot was reached.

The first of the half dozen of Mr. Bryan's speeches, following the initial address at battery D, was delivered at Arcade hall, in the extreme southern portion of the city. The building was packed, and people were hanging on the rafters and others climbing on boxes, piled at every window, outside, to get a look at the candidate. Mr. Bryan was wildly cheered. Coming a mile closer to the business center of the city, Mr. Bryan next spoke at Boulevard hall. The place was packed to the utmost.

At Polish School hall, Mr. Bryan was greeted by an immense audience, which filled the hall to overflowing and reached far into the streets. Mr. Bryan dwelt largely upon the effects of falling prices and making dollars dear by making them scarce.

At the mammoth tent, Twenty-ninth and Halsted streets, and at Germania hall, Mr. Bryan was also greeted by immense crowds, and fulfilled their expectations with spirited addresses, differing from any spoken by him in Chicago, but not substantially varying from what he has said somewhere else.

IMPROMTU CONCERT.

One of the Features of a Big Day at McKinley's Home.

Canton, O., Oct. 28.—An inspiring scene was witnessed on the public square of Canton from 4 to 5 o'clock yesterday afternoon. Thousands of people gathered in front of the courthouse, on the public square and sang patriotic melodies, interspersed with music by the bands and frequent cheers. "Yankee Doodle," "The Star Spangled Banner," followed one another. Nor were "Dixie" and "Maryland, My Maryland" forgotten. Both were sung as lustily and patriotically as was "John Brown's Body" and "Marching Through Georgia." The affair was entirely impromptu, and ended at 5 o'clock with "Home, Sweet Home" from both the bands and the vast audience, which had gathered first as spectators, and then as participators in that great patriotic concert.

Yesterday's demonstration was full of features. It was notable for a large crowd, for the wide range of territory represented by the visiting delegations and for the varied interests of the people who came. The demonstration began in earnest at noon, with the arrival of a party representing three states, and it continued till dark. All that time McKinley's residence was surrounded by an interested crowd, shouting and cheering for the nominee and applauding the delegations, which marched up the street.

In the first party were 16 coachloads, coming from eastern West Virginia, western Maryland and Martin's Ferry, O., the latter delegation being composed

THE CITY CHARTER

To Provide Better Government in Our City.

PURCHASING AGENT AND BIDS ON CONTRACT.

The Republicans are to Vote Against Measure.

In order that voters may understand fully what the revised city charter provides the whole measure is here printed. It is one that will commend itself to every good citizen as calculated to promote good government and economy in running the same. If favored by a majority of those who vote upon the question it will take effect, otherwise it will be rejected. The republicans, it is understood, will vote against it because it increases the mayor's power and gives him the appointment of a purchasing agent.

City Charter Revision.

Sec. 1. All executive powers which are now by law vested in the city council of the city of Lowell, or either branch thereof, shall hereafter be vested in and exercised by the mayor of said city, except as hereinafter otherwise provided.

Sec. 2. The mayor may suspend or remove any executive or administrative officer, except as hereinafter provided, for such cause as he shall deem sufficient, and shall set forth in the order of suspension or removal his reasons therefor, provided that no removal shall be made upon partisan grounds. The order of suspension or removal shall not take effect until it is approved by the city council voting by yeas and nays. The city council may by a two thirds vote in each branch, voting by yeas and nays, remove any of said officers without the consent of the mayor; provided, however, that nothing contained in this section shall apply to any of the following departments, namely:—The school committee, the police commission, the water board, the overseers of the poor, or the trustees of the public library.

Sec. 3. There shall be a department of supplies, and all material and supplies for the city shall be purchased by the chief or head of such department, subject to the approval of the mayor. So far as is practicable purchases shall be after public advertisement and under contract approved by the mayor. All bills for material and supplies shall show the date of purchase, date of delivery, the unit of price, the quality and quantity of articles purchased and received, the number and date of the order for purchase, and if the purchase is under contract, the number and date of the contract, and shall be entered in full in an invoice book, which shall always be open to public inspection. The chief of this department shall be elected by the qualified voters of the city voting at the annual municipal election, and shall hold his office for the next municipal year thereafter, subject to the provisions of section two of this act.

Sec. 4. The mayor shall cause to be kept a record of all his official acts, and to aid him in his official duties may appoint one or more clerks.

Sec. 5. The heads of the several departments and offices shall have the power to appoint and employ and to discharge all subordinate officers and employes in their respective departments; and they shall keep a record, subject to inspection, of all so appointed and employed and of all discharged, and in all cases of discharge the grounds therefor, provided however, that no removals shall be made upon partisan grounds.

Sec. 6. The heads of the several departments and offices shall have the general charge and management of all matters pertaining to their respective departments and shall make and execute all contracts necessary therefor, except for the purchase of material and supplies; but every contract made as aforesaid in which the amount involved exceeds three hundred dollars shall be approved by the mayor before going into effect; provided that nothing in this section shall be construed to prevent the city council by ordinance from transferring any of the duties imposed upon an appointed head of a department by this act or by ordinance, excepting the purchase of material and supplies, to another head of a department or board or commission.

Sec. 6. Neither the city council nor either branch thereof, nor any committee or member thereof, shall directly or indirectly take part in the employment of labor, the purchase of material, the construction, alteration or repair of any public works or other property, or in the care, custody or management of the same, or in general in the expenditure of public money or in the conduct of the executive or administrative business of the city, except as may be necessary for defraying the contingent and incidental expenses of the city council or of either branch thereof; nor shall they or either of them take part in the making of contracts.

Sec. 8. No sum appropriated for a specific purpose shall be expended for any other purpose; and no expenditure shall be made and no liability shall be incurred by or on behalf of the city until the city council has duly voted an appropriation sufficient to meet such expenditure or liability, together with all prior unpaid liabilities which are payable therefrom, except that after the expiration of the financial year and before the making of the regular annual appropriations liabilities payable out of the regular appropriation may be incurred to an amount not exceeding one-sixth of the total of the appropriation made for similar purposes in the preceding year; provided, however, that nothing herein contained shall be construed to restrict or limit the school committee in any expenditure which it is now or may be hereafter authorized to make under any general law of the commonwealth, or to restrict or limit payments on account of the permanent or temporary debt, or such as are required by law to be made to the commonwealth.

Sec. 9 All revenues and all moneys accruing to the city of Lowell from any source whatever, except trust funds and the revenues of the water department, shall when collected or paid into the treasury be carried to one general account to be known as the general treasury fund; and all appropriations by or on behalf of said city, except from trust funds and on account of the water department, shall be from such fund and as provided in section ten of this act.

Sec. 10. All bills or other claims, before they are finally certified by the auditor or paid, shall pass the inspection of a committee of the city council on accounts. Said committee shall consist of one member of the board of aldermen and two members of the common council, to be elected annually by ballot by the body they respectively represent. Said committee may report any such bill or claim to the city council with their reasons therefor, and no bill or claim so reported shall be passed by the auditor or be paid without the consent of the council. Said committee may require the opinion of the city solicitor as to the legality of a bill or other claim.

Sec. 11.—A yea and nay vote of the members of the city council shall be required to pass any order or vote involving the expenditure or appropriation of the public moneys or involving any debt or liability, and said vote shall be entered upon the records of each branch of the city council.

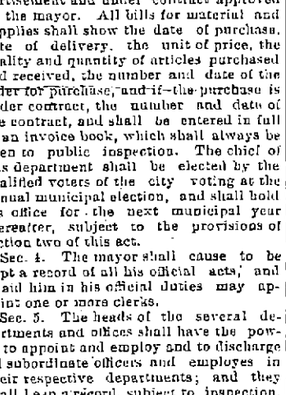

Sec. 12. Less than a quorum of either branch of the city council, or of the school committee, or of the board of overseers of the poor, may adjourn to a fixed day earlier than the next regular meeting, and shall have power to compel the attendance of absent members in such manner as the city council may by ordinance provide.

Sec. 13.—All acts or parts of acts and all ordinances of the city of Lowell inconsistent herewith are hereby repealed and annulled; provided, that no act or ordinance heretofore repealed shall thereby be revived; and provided, also, that nothing in this act shall be taken to prohibit the city council from abolishing any department, board, office or commission created by ordinance.

Sec. 14. The question of the acceptance of this act shall be submitted to the qualified voters of the city of Lowell at the annual state election in the present year, and the affirmative votes of a majority of the voters present and voting thereon shall be required for such acceptance. If so accepted as much thereof as provides for the election of a chief of the department of supplies shall take effect [illegible] next annual municipal election, and the act shall take full effect on the first Monday of January in the year of eighteen hundred and ninetyseven.

Approved May 16, 1896.

FUNERALS.

HEELAND—The funeral of Mrs. Jeannette Healand took place this afternoon from her mother's home on Tremont street. Service was held at the house, Rev. George H. Johnson officiating and appropriate selections were rendered by a quartette. The funeral was very largely attended and among those present was Mayor Courtney. The burial was in the family lot in the Edson cemetery where her sister, Miss Agnes Elvin was buried several years ago.

Over the grave were placed several beautiful floral offerings. A large crescent inscribed, "wife," was the offering of her husband, William Heeland, the well known barber. A magnificent pillow sent by Mr. and Mrs. William F. Elvin, bore the inscription, "Dear Sister." Mr. Hobart sent a standing lyre inscribed "Rest," and a crescent star and bar inscribed "Nettie," had a card attached to it, "sympathy of Miss Lapierre."

The pall bearers were four cousins of the deceased John McLaughlin, William McLaughlin, Joseph Fleming and James McLaughlin.

Deceased was a well known elocutionist and it was she who in behalf of the children presented Charles Stewart Parnell's sister a large bouquet and the greeting of the young people on the occasion of her visit to this city. She leaves a widowed mother who is almost prostrated with grief at the death of her only daughter. A husband, William Heeland, and a brother William Elvin also survive her.

GALLAGHER—The funeral of Daniel Gallagher took place from the home of his parents, 80 Dummer street, yesterday afternoon at 2 o'clock. Members of the Immaculate Conception society of St. Patrick's church were the bearers: Daniel Quinn, John J. Hayes, Charles Archibald, John Donahue, Patrick Delmore and Earnest Mitchell. Among the number of floral offerings were beautiful pieces from the Sunday school class of which the deceased was a member and the Immaculate Conception society. Rev. Fr. Gleason conducted the services at the Catholic cemetery.

DOYLE—Thomas F. Doyle, aged 42 years, died Sunday at the city hospital. Deceased was a well known Ward Two resident and for some time past kept a store at the corner of Common and Salem streets. He has been ailing for many years past. The funeral took place yesterday morning and was largely attended. At St. Patrick's church a high mass of requiem was celebrated for the repose of his soul. Burial was in the Catholic cemetery.

SUPERIOR COURT.

The Horse Case Lags While Testimony is Read.

The entire afternoon session yesterday was taken up with the reading of testimony of Clapp and Hunton given at the investigation. Stenographer Rollins read the report in an agreeable manner but as all the testimony was old to all but the jury the spectators lost interest in it after half an hour and many dozed off quietly awakening with a start at each slight noise. The jury, however, appeared deeply interested in the reading.

A couple of the defendants who did not seem much disturbed at the course of events also had a nap.

At four o'clock Mr. Rollins was not near finished and court adjourned until this morning with indications pointing to the last of the week for the termination of the celebrated case.

Morning's Session.

Today's session promises to be long drawn out, dull and uninteresting.

At the opening of the session City Engineer Bowers was recalled and he testified that while he had been serving as city engineer there was no regular practice in the purchase of horses. In some years it is done by the full committee and in others it was done by the sub committee appointed to act with the superintendent of streets.

Mr. Rollins, the stenographer at the hearing before the city investigation, resumed the reading of the testimony alleged to have been given by Hunton at the hearing.

When the stenographer was about to read a statement of Mr. Burke, council for Mr. Hunton at the hearing, Judge Hardy asked if it was desired to have that read, and the district attorney replied affirmatively.

CAMPAIGN NOTES.

In the 26th district, which is overwhelmingly republican, the democrats have nominated three clever and clean young men: John Conroy is an employe of the Lowell and Suburban road; Charles W. Whitman works at C. I. Hood's laboratory, and George Byam is a Chelmsford milk-man. These three young men will receive republican votes, but of course not sufficient to overcome the big majority. Were the district closer, it is stated that Whitman would be a winner, for the republicans are going to cut "Jimmie Ramsey. Peter Caddell and his followers, who "Jimmie's" friends claim are A. P. As, will give him the go-by. Peter is sore ever since caucus night, and it will be some time before the factions harmonize again. In fact, the differences will be felt in the battle for municipal offices.

Secretary Tully, of the democratic city committee, stamps as a falsehood the statement in a morning paper that he said he had lost the copy of the city committee rules.

The belief grows stronger that "Joe" Miller will win the republican mayoralty nomination. Many republicans who do not intend to vote for Miller say that he will win, because he has the party organization with him and will draw from the Wilson, Tryder and Marston forces to a great extent. It begins to look as though either Miller or Col. Bennett will win.

James Kennedy has already commenced an active canvass for the democratic councilmanic nomination in Ward two, and his friends intend to urge his candidacy upon the voters from now till caucus night.

Tomorrow night the 110 club will have a flag raising over at William Cogger's house in Concord street.

John H. Sheehan is a candidate for the common council in Ward five.

Jeremiah McGlinchey's friends are working hard for his nomination for overseer of the poor in Ward Five. He is a prominent grocer on Gorham street, a good democrat and a general hustler. As he knows the people of his ward thoroughly and has a wide business experience, he would make an overseer that would look out for the poor in his ward. Mr M'Glinchey deserves the nomination his friends say for the reason that he has helped a great many poor people at his own expense.

The Lawrence Sun says: "Candidate Harrington is making a sturdy fight in this district for congress, and without much doubt, will be successfully landed. No corporation has a mortgage on him, and he will vote and act in Washington as becomes the representative of one of the most intelligent constituencies in the country.

The voters of the 26th district have an opportunity of casting their ballots for Matthew M. Mansfield, John J. Gordon and Rollin Stickney, three candidates on the democratic ticket well deserving of general support. The service of Mr. Mansfield and Mr. Gordon in the city council is well known and recognized by the democrats of the entire city, while Mr. Stickney has always been a faithful worker in the ranks. There is an opportunity to elect all three of these men, and democrats should see to it that it be accomplished.

In the 27th district the candidates are Jos. Donohue and M. F. Coughlin. Mr. Donohue is the well known and popular overseer of the poor, and Mr. Coughlin is a Billerica democrat who will run well in the suburban end of the district. There is no reason why two of these should not be elected. Mr. Donohue is an able fighter, and it is expected that he will down one of his republican opponents and serve in the next legislature. He deserves promotion and the democrats of the 27th district are determined that he will have it. They are also determined, if possible, to elect Mr. Coughlin.

City Clerk Dadman has notified all election officers to be at city hall Saturday night and receive instructions.

There was a meeting of the republican city committee last night when arrangements were made for getting out the voters on election day. Another meeting will be held Friday evening.

The Young Men's republican club met last evening and appointed a committee to prepare a big bonfire for Saturday night.

All the local republican campaign clubs went to Nashua last night and took part in the big parade.

A comparatively recent innovation is fly-front coats and vests: They'll never come into general use, but they're different. Those who'll wear them will generally be young men.

Within two weeks there's been a larger demand for hard faced goods, lots of men say they don't like the high colored cheviots.

We've some very choice patterns in neat, dressy cassimeres and fancy worsteds made in the regular way $10 to $20 a suit from Rogers, Peet & Co. and our own work rooms.

HANGED HIMSELF

Ben Nealey, Aged 60, Found Dead.

IN A WATER CLOSET IN DALY'S BLOCK.

Had Been Ill and Very Despondent.

"Ben" Nealey, a well known character about old Ward Three, about 60 years of age, and a tinker by occupation, was found hanging in a water closet in the block at the corner of Gorham and Keene streets, about 6 o'clock this morning.

Nealey, it is said, has a wife and six children residing on Abbott street, but it is known that for the past week or more he has lived in this block with Daniel Gallagher and other tinkers who live there.

A woman named Julia McCleary discovered the suicide but in the dark was unaware that the man was dead. Her husband went out, however, and found Nealey dead though still warm hanging by a piece of rope. The closet is separated from the entry by a partition not over 5 feet 10 inches or six feet high and in order to hang himself it was necessary for Nealey to bend his legs to keep his feet off the ground and this he did. It is supposed he hanged himself about five o'clock.

The other families in this block state that Nealey has been suffering terribly with Bright's disease and made two or more requests that the ambulance call for him, expecting it surely last night.

It is supposed that when Nealey saw that his appeal to be taken to an hospital was unheeded, it so discouraged him that he decided to end his life immediately.

The body was taken to an undertaker's.

Read the prize offer for election guesses in O'Hearn & Dowd's advertisement today.

There was a very pleasant social event at the residence of Mr. Walter Coburn, 14 Wannalancit street, last evening. The event was distinctly a family one, and was quite largely attended. Refreshments were served during the evening, which proved to be a most enjoyable one for all who were present.

The Chicago grain elevator burned the other night did not quite turn the corner.

The Mail is disgruntled, because it sees defeat coming to its party. The gold men are on the run.

Everybody is guessing the result of the election One week more will end the guessing and the worry. Bryan will then be president elect.

Mr. Knox voted for the bill to cut off the appropriation of the Catholic Indian schools, a measure which was openly pushed forward by the A. P. A.

The school board has no use for filters favored by democrats. A republican filter is now to be sought, viz., one that will extract all democratic microbes from the drinking water.

The republican trusts are apparently keeping up the price of wheat as they are keeping up the gold reserve until after election day. No matter who is elected there will then be a slump.

Will this city take the advice of the chairmen of the two great political parties and observe flag day. It seems that there is no particular point to the observance on such an occasion, especially as a double meaning is to be given according to the views of the decorators.

The advocates of the gold standard take comfort in the fact that the stream of gold has reversed its direction and now flows from England to America. They have helped the flow by cornering the wheat and charging a good price for it. England must buy her wheat here on account of the failure of the Indian crop whether she likes it or not.

That was a good point made by Hon. Pierre Humbert in his speech at Huntington hall last Saturday night. England must buy her wheat here so long as the Indian crop is short. For that she must pay gold. If America adopted free silver coinage, England would have to buy her silver with which to purchase wheat in India so that she would have to procure her wheat supply either directly from the United States, or with United States silver from India. That would give us a little corner on England.

The Mail is floundering in all directions on the money question. It says that it has proved repeatedly that gold has not appreciated since 1873. It has never proved anything of the kind and furthermore it cannot prove it to the satisfaction of any thinking man. The appreciation of gold since 1873 is an accepted fact by every paper and every man of truth in this country but of course the people and the men that ally themselves to the robber standard cannot afford to admit the truth, and they have no arguments to sustain their position.

The Supreme court on Monday made an important decision, Chief Justice Field and Judge Allen dissenting. It forbids strikers to patrol in front of the premises of their former employes on the ground that such patrolling is a species of intimidation, to prevent others from taking their places, and also to prevent the public from patronizing the concern. This is another restriction imposed upon labor seeking justice. The decision is in a line with that of the Supreme court in the Debs case, and with important decisions rendered in England under like circumstances. The defendants in the case have been enjoined against maintaining the patrol and thus another legal precedent operating against strikers is established.

HARRISON'S WORDS.

In his last message to congress Dec. 6, 1892, President Harrison said: "I have not doubted, and have taken occasion to express that belief, as well in the invitations issued for this (the international *monetary*) *conference* as in my public message, that the free coinage of silver upon an agreed international ratio would greatly promote the interests of our people, and equally those of other nations. It is too early to predict what results may be accomplished by the conference. If *any temporary check or delay intervenes*, I believe that very soon commercial conditions will compel the now reluctant governments to unite with us in this movement to secure the enlargement of the volume of coined money needed for the transaction of the business of the world."

THE POLITICAL CAMPAIGN

OUR LEADER, OUR HERO

James Creelman, the chief traveling correspondent of the New York World, telegraphed to that newspaper on the first day of Bryan's final tour through Indiana as follows:

Great multitudes roared about him everywhere, but the Republican managers distributed yellow badges and urged the McKinley men to mass themselves at all points.

The result was bewildering. Mr. Bryan's way lay through the strong Republican district, and it was not until he reached Fort Wayne tonight, the Democratic stronghold of the state, that he swept all before him.

It is quite evident that Mr. Hanna's plan is to have counter demonstrations wherever Mr. Bryan appears until election day.

Never has Mr. Bryan shown his strong qualities to better advantage than today. All through the savage tumult he has been serene and undismayed. At times he has been for ten minutes continuously surrounded by yellow ribbons and Republicans shrieking McKinley's name in his face.

Whatever else Mr. Bryan may be, he is a man of steel nerves. The mob seems to inspire him, and the more brutally hostile a crowd is the calmer and bolder he grows.

I have known him for years, but he revealed himself in a new light today. Mrs. Bryan, too, faced the howling Republicans smilingly at her husband's side, flinging a rose here and there to a rapturous free silver man.

At the end of Bryan's second day in Indiana Mr. Creelman telegraphed to The World from Terre Haute as follows:

News reached him (Bryan) on the train today that Mr. Hanna's money is already moving like a tide through Indiana, and that the Republican leaders are trying to get Democrats to move out of their districts so that they may lose their votes.

Mr. Bryan's soul seems filled with the passion of the conflict. He is revolution incarnate. Today he spoke to more than 150,000 persons, and tonight Terre Haute is mob glorious. Whatever may be the result of this terrific campaign, Mr. Bryan has proved hero, in the very heart of Indiana, that the free silver idea has taken hold of the common people.

All day he has declared that the war of money standards which has rent the Democratic party will not end on election day. Again and again he said that Democrats who desert now can never come back except after long penitence and mortification. From sunset until early morning bonfires danced on the night landscape.

He attacked Benjamin Harrison in his own state, accusing him of trying to advocate a gold standard under the cover of bimetallism. He lashed his audience into madness by appealing to them not to consent to foreign domination in American finance.

Bryan's Marvelous Endurance.

The fierceness of the conflict in this state was apparent everywhere as the special train fled from district to district. Great meetings, processions and barbecues were in progress, and hundred of orators were at work, and in the midst of all this thunderous confusion Mr. Bryan towers up a born leader of men. He may be defeated, but if he lives he will play a great part in the immediate future. I have watched him day after day, and he seems to grow stronger and more self reliant every hour. Nothing depresses or daunts him. His marvelous voice seems indestructible, and his brain is tireless.

Mr. Bryan seems to understand that the result of this best trial of strength in Indiana and Illinois depends upon himself, and he has concentrated all his powers in this one supreme effort to overcome the almost irresistible forces in the field against him.

This has been a day of color and strife. From the train windows the pictures of Bryan and McKinley could be seen in alternate farmhouse windows. Great crowds of men and women swept into the towns and cities where the multitudes roared about Mr. Bryan's carriage, and the rough roads sprawling through the farms were crowded with wagon loads of Democrats. Hundreds of young girls, with silver spangled blue skirts, sat astride of white horses at every stopping place. Every white horse in Indiana seemed to be in view today.

Crowds Were Democratic.

As the train neared the western section of the state the crowds grew larger and more purely Democratic. Mr. Bryan and his wife threw bushels of flowers from the end of the train. At times the demonstrations of the crowd reached the point of adoration. Men who could not reach his hand touched his coat, legs and feet. Some of them yelled till tears ran down their cheeks. Many were hysterical. Mark the political crusader as he moves along in the wild procession—a tall man in a well worn coat, with a dusty soft felt hat pulled down over his travel stained face, his eyes burning like coals of fire and his head and his powerful, priestlike face radiant with *hope and courage. Around him swells* the defiant shriek of his followers that "Wall street shall not prevail against the people."

So it was today at Decatur, Rochester, Huntington, Peru, Delphia, Frankfort, Lafayette, Crawfordsville, Greencastle, Brazil and Terre Haute. And so it will be in Illinois tomorrow. It is an irreconcilable conflict.

A CORNER IN GOLD.

That Such Is Intended Is Clearly Shown by Reports and Recent Movements.

Much is being made by the Republican newspapers out of the large gold imports as showing a prosperous condition of the country and the sufficiency of the single gold standard to furnish adequate protection to the holders of the government's promises to pay in the shape of legal tenders or other notes. But an inspection of the bank statement and the treasury figures giving the amount of the reserve fund is anything but reassuring to the average man.

It is evident that a large proportion of the gold in the country, either coined or available for coinage, has been hoarded, and thus withdrawn from circulation. The amount that has disappeared within the last two months is so large as to excite even the denizens of Wall street, who are accustomed to big transactions, and indicates with what ease the moneyed institutions and their customers could "corner" the entire available supply of that money which the Hanna party proposes to make the exclusive standard of the country, leaving the government helpless to redeem its pledges.

The weekly statement of the New York associated banks of Aug. 22 showed that they held $46,796,000 in specie, mostly in gold. The statement of Saturday, Oct. 17, showed that they held $59,136,400, or a gain in less than two months of $12,339,800. Since the gold movement set in this direction $48,211,129 has been imported. Of this amount $35,000,000 has been deposited in United States depositories, from which $10,000,000 has been withdrawn, leaving the net gain to the government reserve $25,000,000. This, with the increased holdings of the banks, leaves to be accounted for $10,871,829, which has disappeared from sight. That means that it is being hoarded in interior banks and safety deposit vaults.

On July 1, 1890, the treasury department reported that the total gold coin of the United States was $597,931,829 and that the gold bullion in the country was $32,268,955. Since then $48,211,129 in gold coin and bullion has been imported, making the total gold of which the treasury department takes cognizance, not all of which is necessarily in this country, $643,411,907. The gold which has been sequestered by the New York banks and the interior moneyed institutions in two months amounts to $23,211,129, or over 3½ per cent of the amount the government depends on to make good its notes. This is a startling aspect of the gold situation, showing that in a few months, even if importations continued at the present rate—which they are not likely to do, but are more apt to be reversed and an export movement set in—the banks and their allies could get control of such a large percentage of the gold available for government use as to seriously cripple it, if not to throw it into bankruptcy. These figures are all the more significant when it is remembered that the banks and other moneyed institutions already hold the greater proportion of the available gold. There is no escape from their grasp except by the adoption of the double standard and the placing of silver on a parity with the metal which they now control absolutely.—New York Journal.

Prussian Miners.

According to an interesting report published by Franke in the Prussian official mining organ there were in 1893 in the mines of the Dortmund district 206 lavatories and 167 collieries, with 292 shafts. In these washing facilities were afforded to 132,450 men, or 95.7 per cent of the entire mining population. The lavatories are quite close to the mouth of shaft or pit, the average distance being 100 feet. At several of the pits the lavatories can be reached without the men having to go out into the open air, and most of them are so arranged that the surrounding buildings afford protection against the weather. In 117 cases entirely separate buildings are used, and in 92 lavatories form the chief portion of the buildings, the other portions being used for lamps and for offices. The buildings are usually brick, roofed with wood, corrugated iron or roofing felt. The floors are of cement, asphalt, flags, plaster, bricks or wooden grids. In many cases the washing and dressing rooms are distinct. In 139 lavatories there are 365 baths, averaging one yard depth of water, and in 90 lavatories there are 2,526 shower baths, 10 of which are supplied with cold water and 2,516 with warm water. The water used is usually river or well water, mine water being used only when it is clean and good. The water is in most cases heated by steam. The lavatories are usually heated by steam pipes.

A CLERICAL CARPENTER.

Rev. H. V. Morgan of Alameda Building His Own Church.

On the slant of an unfinished roof, with his toes on one beam, his knees on another, *a hammer in his hand and a sixpenny nail* in his mouth, is an odd situation in which to find a clergyman.

Yet that is how I found the Rev. Henry Victor Morgan, pastor of the First Christian church of Alameda.

He was wearing a carpenter's apron, with the pockets full of nails; his shirt sleeves were rolled up, and his coat was *carefully folded across a sawbuck under a* tree.

The roof he was clinging to is the roof of a church at the corner of San Jose and Park avenues, Alameda. It is a church to house his flock, and he is spending his vacation building it.

An uncommon way of spending vacation—but it is the way of an uncommon man.

"We had to have a church," he explained with deprecating modesty as he backed down the ladder to chat with me, "and as I am pretty handy with tools and fond of manual labor I thought it would do me just as much good to put in my vacation building a church as it would to go mountain climbing or something of that sort. *When money is as scarce as it is now*, it is easier to labor than it is to raise the funds to pay the laborers. The members of the congregation are taking a lively interest in the building, and here are some of them working with me," and he pointed out Elder Bovyer in a pair of overalls and a straw hat, hoisting boards to the ridge of the roof, and Brothers Brown and Thompson *sawing and hammering away as eagerly* as boys with a brand new chest of tools.

"We expect to have it ready to hold services this fall. When the building is finished, there will be no debt hanging over it. Everything is paid for as we go along. To be sure, we had to raise the money to buy building materials as we needed them, but we have not bought a foot of lumber unless the *money was in sight to pay for* it. This building"—it is a large, airy, redwood structure, over 50 feet long and 30 feet wide—"will serve as a church until we can put up a better one. Then it will be moved to the back of the lot and used as a Sunday school room."—San Francisco Examiner.

NEW MONUMENT ON ANTIETAM.

Massachusetts Veterans to Erect a $25,000 Granite Structure.

Another $25,000 monument will shortly be erected on Antietam battlefield. This one will be erected by Massachusetts soldiers. The governor of Massachusetts and the council of Boston have approved the design chosen by the commission having in charge the selection of the monument to the Massachusetts troops who fell at the battle of Antietam. It will be built of Massachusetts granite, 21 feet long and 15 feet high, and will be erected on a mound standing 8 feet above the surrounding ground, at the fork of the two government roads, near the Nicodemus house and the famous old Dunkef church.

On the bronze tablets to the right and left will be placed the numbers of the regiments engaged in the fight and their legend. At the rear of the centerpiece will be a map of the battlefield engraved on bronze, with the location of each regiment. In the center of the monument the coat of arms of Massachusetts will be placed. A path will be constructed around the mound, and granite posts with brass rails will surround the plot.

HER HAPPY DAY.

A CHARMING STORY OF MEDICINE AND MARRIAGE.

Two Open Letters From a Chicago Girl —How Happiness Came to Her.

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 8th, '95.
My dear Mrs. Pinkham:—A friend of mine, Mrs. ——, wants me to write you, because she says: "you did her so much good." I am desperate. Am nineteen years of age, tall, and weighed 138 pounds a year ago. I am now a mere skeleton. From your little book I think my trouble is profuse menstruation. My symptoms are * * * * etc.

Our doctor (my uncle) tells father that I am in consumption, and wants to take me to Florida. Please help me! Tell me what to do, and tell me quickly. I am engaged to be married in September. Shall I live to see the day? * * * *
LUCY E. W.

Chicago, June 16th, '95.
My dear Mrs. Pinkham:—
This is a happy day. I am well and gaining weight daily, but shall continue the treatment and Vegetable Compound during the summer, as you suggest. Uncle knows nothing about what you have done for me, because it would make things very unpleasant in the family. I would like to give you a testimonial to publish, but father would not allow it. * * * * I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude? * * * *
LUCY E. W.

Just such cases as the above leak out in women's circles, and that is why the confidence of the women of America is bestowed upon Mrs. Pinkham.

Why are not physicians more candid with women when suffering from such ailments?

Women want the truth, and if they cannot get it from their doctor, will seek it elsewhere.

A Real Advantage.

"I wonder why it is that young girls like to marry widowers?"

"It is because they know that widowers have been cured of their foolish illusions about women."—Chicago Record.

A Criticism.

"Was the joint debate interesting?"

"Well," replied the man with the red necktie and diamond pin, "it promised to be at one time. But it was de same old story. Dey jes' took turns standin off an darin one another, an neither one o' dem had de nerve ter start in fer a clinch an mix things up fer sure."—Washington Star.

GLICK & YOUNG, Props.

of women, coming with greetings for Major McKinley and with beautiful flowers for Mrs. McKinley. Employes of three large Cleveland manufacturing concerns were next upon the scene, and when they gave way, it was to make room for more Ohio people, men and women from Mingo Junction, the employes of a large iron and steel plant and their wives and friends.

After these came the New England delegation. This party occupied a special train of six sleepers and two dining cars, and was on the way from 2 o'clock Monday afternoon till 2 o'clock yesterday afternoon. The party came largely from Boston, but a number of other New England towns were represented. It was composed of former Democrats as well as Republicans, and one of the men presented to Major McKinley was introduced as one who had for over 50 years voted nothing but the Democratic ticket, but who, this year, will vote for McKinley and Hobart. The visitors were introduced by Frank W. Rolling, ex-president of the New Hampshire senate. Many relics and mementoes of the visit were brought for Mrs. McKinley from Boston, from New Bedford and from historic Salem, including whales' teeth, twigs from a tree planted by Governor Endicott in 1628, and a gold witch spoon. The party remained in Canton till 6 o'clock.

No prettier sight has been witnessed in the whole campaign than in the reception of the Women's McKinley club of Norwalk, O. This club of some 200 members is splendidly organized and drilled, and when on parade carries campaign umbrellas, on which portraits of McKinley and Hobart are conspicuous. Mrs. McKinley, owing to sickness, could not receive the visitors. The major's mother and sister, Miss Helen McKinley, however, were at the house, and extended most cordial welcome to the callers. When Major McKinley concluded his address to the accompaniment of the Norwalk band, the women united in singing a campaign song to the tune of "Red, White and Blue," waving their handkerchiefs, and producing a most striking effect.

Popularity Sticks to Him.

Los Angeles, Oct. 28.—A steady, drizzling rain put a damper on what was calculated to be the grandest political demonstration ever held in California yesterday. The Business Men's Sound Money league had made most elaborate preparations for "Tom Reed day." Thousands of uniformed men were to have been in the line of march, and the business portion of the city had been gorgeously decorated. The rain forced the great crowds that came on special trains from all parts of California to seek the shelter of hallways and awnings, while only the most enthusiastic could be induced to the mud and join the procession. A carriage, drawn by four cream colored horses, carried the distinguished visitor in the parade. Although Mr. Reed was not scheduled to speak at Athletic park until 5 o'clock, thousands of people assembled at the grounds early in the morning and stood waiting in the rain. Twenty-five thousand people greeted Mr. Reed with wild cheering when he stepped to the platform, and the witty points of his speech were received with much appreciation.

Williams Warmly Welcomed.

Boston, Oct. 28.—After a two weeks' stumping tour in the middle west, George Fred Williams arrived home last night, and was received at the railroad station by some 5000 of his supporters. After headinga torchlight procession, with red fire and fireworks, Faneuil hall was reached, and here Mr. Williams was again greeted uproariously. Previous to Mr. Williams' arrival at Faneuil hall, a rally was held, under the auspices of the Bryan-Sewall-Williams club. So great was the crowd outside the hall that Mr. Williams was obliged to make a speech before he entered the hall, so that the Democratic candidate for governor was speaking outside Faneuil hall while the candidate for lieutenant governor, C. T. Callahan, was laying down Democratic principles inside the historic edifice.

A Word From Cleveland.

Indianapolis, Oct. 28.—Hon George W. Julian, who, in spite of years and imperfect health, made a recent speech for the Gold Standard Democracy, has received a letter from President Cleveland. The letter is written, as well as signed by the president's own hand. The president warmly commends the speech, and concludes as follows: "I cannot but believe that such expositions of true Democracy will have the effect of calling vast numbers of our party back to the support of genuine Democratic principles."

Special Rates For Politicians.

Chicago, Oct. 28.—Some of the western roads have, by the consent of connecting lines, been granting concessions of various kinds to both the leading political parties in the campaign, and the practice has been carried so far that the chairman of the Western Passenger association has been called upon to issue notice to the roads that the association, some time back, made special rates for all political gatherings, and that these rates must on no account be disturbed.

To Help Gold Democrats.

Washington, Oct. 28.—Secretary Herbert left here last night to make a series of speeches in Alabama, in advocacy of the election of Clark, the Gold Democratic candidate for congress from the district which he formerly represented. The secretary will remain over to vote for the Palmer and Buckner electors at Montgomery, next Tuesday, returning to Washington immediately thereafter.

Investigation Has Begun.

Montpelier, Vt., Oct. 28.—The legislative committee, which was recently appointed to investigate charges against Dr. Giddings, superintendent of the Waterbury insane asylum, began the hearing this morning, at the county courthouse here. The committee will first go over the evidence presented by State Attorney Stanton before the grand jury, on which five indictments were found, and will then go to Waterbury to examine the institution. After returning here, a complete inquiry will be held.

Tried to Kill His Wife.

Portland, Me., Oct. 28.—William Parks, 49 years old, whose home is in Yarmouth, attempted to kill his wife, on Middle street, last night. She had left him, and said she was going to Boston to get rid of him. Four shots were fired, but none reached their intended mark. Parks was arrested almost immediately, but, even while in irons in the officers' grasp, he attempted to strike the woman. The man had been drinking, and was insanely jealous of his wife.

Dr. Lee Gets Five Years.

New Haven, Oct. 28.—Dr. J. E. Lee, who has been before the courts on three different occasions, was found guilty of malpractice by the superior court yesterday, and sentenced to five years in prison. The jury was out but 15 minutes. The only witness presented by the state was Miss M. Palmer, the alleged victim, and the story told by her was the most revolting in the history of Connecticut.

LAVIGNE WON

In His Fight With Everhardt For Championship and Big Purse.

New York, Oct. 28.—The Bohemian Sporting club held its first contest of importance last night, when "Kid" Lavigne and Jack Everhardt met in a 25-round bout, at 133 pounds, for a purse of $3500. The price charged for admission—$30, $20 and $10—kept the class of spectators very select. The betting was $1000 to $700 on Lavigne. Both men reported themselves in splendid condition. The contest was advertised as being for the "lightweight championship of the world. The "Kid" had the better of the contest in almost every round, and in the 24th round a right swing on the jaw sent Everhardt reeling, and another straightened him up. A third staggered him, when the referee jumped between them and stopped the bout, awarding the fight to Lavigne, after 1m. 53m. of fighting, in the 24th round.

As It Looks to the Thunderer.

London, Oct. 28.—The Times this morning prints a letter from Moreton Frewen, dated at Chicago, expressing confidence in Bryan's election. He is certain, he says, that McKinley must carry all of seven central states, to avoid being beaten. The Times prints out editorially that their correspondent in New York, who has hitherto maintained that the Republicans are in little danger of defeat, sent a dispatch yesterday, admitting that the situation in Chicago is disquieting. The most serious factor, says The Times, is the prominence which Bryan now gives to the socialist side of his policy. The Times Adds: The victory of those doctrines would be fatal to all confidence. Mr. Bryan's return would be calamatous, not only to America, but to all the civilized world, even though active legislative spoliation might not immediately be possible. We see nothing in the situation to affect our hope that Americans will choose the better party, though we do not look forward with much confidence to the policy of McKinley's government, if he is elected.

WAS MINOR POINT

The Marquis of Lansdowne's View of Schomburgk Line.

CLAIMS OF GREAT BRITAIN SET FORTH.

They Will All be Supported He Says.

London, Oct. 28.—The Marquis of Lansdowne, secretary of state for war, made an address on political issues at Leeds last night. The speaker expressed the belief that the Venezuelan question would be soon dealt with by an arbitrator or by an amicable compromise.

In the course of his address he said that the Indian government felt the gravest fears as to the possible loss of life from famine, and he suggested that the undertaking of irrigation works would do the most good toward relieving the distress.

Referring to the recent statement of Sir Edward Clarke, formerly solicitor general in Lord Salisbury's last government, that no impartial arbiter could decide in favor of Great Britain in the Venezuelan question, the marquis asserted that he was given to understand that Sir Edward only referred to districts beyond the Schomburgk line. This said the marquis, was a minor point, and was open to a wide divergence of opinion; but he assured his hearers that Great Britain's claim to the territory, as a whole, was not put forward without the most careful consideration.

There was reason to believe, he continued, that a time was approaching when these questions would be dealt with by an arbiter, or by an amicable compromise, under suitable conditions. When that time came, they would go to court, not believing that every point would be given in their favor, but confident that their claims, at any rate, were supported by evidence based on well established principles of international law.

Significant Utterances.

Vienna, Oct. 28.—According to The Fester Lloyd, M. Pobiedonestziff, chief of the old Russian party, when in Vienna, declared that there could not be any question whatever of a real alliance between France and Russia. "Friendly relations have existed," this Russian statesman is quoted as saying, "nothing more. We returned thanks when the czar left France, as we were in a perpetual state of anxiety. The French cannot be depended upon. Russia is now in the position of a nurse toward France. The Emperor of Germany knows that very well. It is advisable not to attach too much importance to the meeting between the czar and President Faure."

Germany In a Plot.

London, Oct. 28.—A Vienna correspondent of The Daily Mail is assured that one of the imperial yachts is anchored opposite Becttktache, near Constantinople, closely guarded day and night, and that there is a subterranean passage from the Yildiz Kiosk to the seashore, which is patrolled unceasingly and is kept constantly lighted. Vice Admiral Chakri, commander of the imperial yacht, has been instructed to remain at anchor at Becttktache until further orders.

Spirit of Retrenchment.

Paris, Oct. 28.—The cabinet has approved the scheme of Dr. Barthou, minister of the interior, for decentralization and for enlarging the powers of the municipal and departmental councils, by dispensing, in certain cases, with the approval of the prefect. The scheme reduces the prefectorial councils from 66 to 18, thus saving 450,000 francs. Four bills embodying this scheme were presented to the chamber today.

Should Be Attended To

Montreal, Oct. 28.—It has become known that for some two weeks the larger of the two city reservoirs on the mountain has been in a dangerous condition. It holds 18,000,000 gallons of water, and experts say that if a break should occur, the whole city would be washed away. The matter has excited the attention of the authorities.

For a Greater Navy.

London, Oct. 28.—The Daily Mail publishes an interview with H. J. Wickham of the Navy league, Toronto, urging that an auxiliary British navy be gradually established by liberally subsidizing the improved mercantile cruisers, manned and officered by a system of naval reserves, which shall include colonial seamen.

Spanish Mob Got After Them.

Cadiz, Oct. 28.—A number of Cuban prisoners, who were landed here, were escorted from the harbor to the jail by a mob. The Cubans were hissed, and stones were thrown at them, the mob finally becoming so excited that it was with the greatest difficulty that the police landed the prisoners safely in the jail.

All Hands Drowned.

St. Thomas, Ont., Oct. 28.—The government cruiser Petrel has arrived at Port Stanley, with the news that the schooner Sandill, loaded with lumber for Tonawada, from Wlarton, went down in Lake Erie Friday, and all hands were lost. The Sandill carried a crew consisting of captain, mate, three seamen and cook.

Warfare In Africa.

Lisbon, Oct. 28.—A telegram received here from St. Paul De Luanda, Portuguese West Africa, says that the Portuguese expedition has just punished the rebellious Bendo natives, burning 24 of their villages and killing 100 of the rebels.

Small Wheat Average.

London, Oct. 28.—The Times' agricultural returns show that 278,075 acres have been added to the British wheat area this year. Nevertheless the area is yet only 1,734,118 acres, the smallest on record, except in 1895.

Ninety Turks Killed.

Athens, Oct. 28.—At Taxis, a band of Macedonian insurgents has defeated a detachment of Turkish troops, after a long engagement, in which 90 Turks were killed and eight were captured.

Dr. Capen In Financial Straits.

Cambridge, Mass., Oct. 28.—Rev. E. H. Capen, D. D., president of Tufts college, has filed a voluntary petition for insolvency. The causes which led to the assignment do not in any way affect the institution with which he is connected. In order to help personal friends, he had endorsed too large an amount of paper, and property given to him as security was found to be over-estimated in value.

KILLED BY TRAIN

Dr. and Mrs. Palmer Killed On Crossing

WHILE DRIVING ACROSS IN A CARRIAGE.

A Third Party Had a Narrow Escape.

By Associated Press to the Sun.

New York, Oct. 27.—While Dr. W. W. Palmer and his grand-daughter Fannie, and Wm. Hunran were driving across the railroad track near Keyaport, N. J., this morning, the carriage was struck by a train.

Dr. and Miss Palmer were instantly killed and Hauran was fatally injured.

INTESTESTING CASE.

Involving a Verdict of Over $100,000 Insurance.

By Associated Press to the Sun.

San Francisco, Cal., Oct. 27.—Owing to the court clerk's error the Mutual Life Insurance Co. must pay to Miss Nellie Phinney a judgment of $98,000 with interest and cost making a total of $100,000. Upon their refusal to pay the claim the case has been brought to court. The case was appealed but the clerk of the court at Washington failed to properly endorse the writ of error. The time allowed for another appeal has expired, making this decision final.

Sub Treasury Saved.

By Associated Press to the Sun.

San Francisco, Cal., Oct. 27.—The subtreasury has just pulled through a rather serious run which threatened annihilation of the gold reserve. Timely aid from Chicago and other places tided it over the danger and the flurry is now over leaving four millions in the vaults.

MR. BRYAN STILL FIGHTING.

McLAUGHLIN—The funeral of Mary E. McLaughlin took place this afternoon from her parents' home on Jewett street, and burial was in the Catholic cemetery.

MEADE—The funeral of Hannah Meade occurred this afternoon from her late home on Adams street and was very largely attended. At the grave in the Catholic cemetery service was conducted by Rev. Fr. Leonard.

LITIGATION GOES ON.

The Sheriff Drops in to Leave a Little Notice With the First Congregational Church.

There was a special meeting of the First Congregational church to consider the question of calling an advisory council, and a committee was appointed to arrange for such a council. This committee will report at a meeting to be held Friday evening, Nov. 4.

Just before the meeting was called to order and while the people upstairs were singing hymns, Sheriff Stiles entered one of the small class rooms and served a protest against the appointment of an advisory council, from members of the First Trinitarian Congregational church.

200 CHILDREN

Were Confirmed at St. Michael's Church.

There was a very large congregation at St. Michael's church last night at the ceremony of administering the sacrament of Confirmation. His Grace Archbishop Williams officiated and confirmed 200 children. He was asisted by Rev. William O'Brien, Rev. Fr. Scannell and Rev. Fr. Gilday.

Archbishop Williams was the guest of Rev. William O'Brien, the pastor of St. Michael's church.

TWO WOMEN DEAD.

From Escaping Gas From Their Stove Heater.

By Associated Press to the Sun.

Boston, Oct. 27.—Mrs. Elizabeth Hart, 60 years of age, and daughter, Mrs. Sarah J. Stevenson, 36 years, both widows, were found dead in their home on Broadway this morning by asphyxiation.

It is believed to be an accident due to gas, a heater pipe being open.

SUPERIOR COURT.

The Horse Case Testimony Yesterday Afternoon.

The cross examination brought out nothing.

Eldren J. Welch of the firm of Welch and Hall, horse auctioneers of Portland street, Boston, produced his books and was asked: "Did Jonathin G. Hunton buy any horses from you on Wednesday, April 8, or Saturday, April 11?"

"I object," said Mr. Burke. "We concede that Mr. Hunton was the owner of eight horses." He would not concede that they were purchased from Welch and Hall. The question was allowed after a discussion and an exception saved.

Witness produced the records of April 8 which showed that Hunton purchased one horse at $122. On Saturday of that week he purchased five horses, one at $109, one at $87, one at $108.50 and two at $100. He afterward bought a small horse of $67. He paid witness in checks.

The five were draught horses. Couldn't remember who shipped the horses.

On cross examination by Mr. Burke, witness said that he had been in business for 10 years. The firm sells about 7000 horses a year. He said that western horses when they come east in March or April are generally sick with acclimated fever. The firm gives no warranty against sickness, but if such a warrant was given they would probably sell for perhaps from $125 to $200 apiece.

John J. Savage of Boston, a bookkeeper at Brockeray's auction stable on Portland street, knew Hunton by sight having seen him there several times. On April 8, Hunton bought a pair of horses for $207, that is $103.50 each.

On the 11th he bought two more horses for which he paid $75 and $90.

Joseph Leclair of Boston, a conductor on the Fitchburg railroad who formerly worked in Conant's stable under Mr. Hunton was called. He remembered bringing horses down from the freight train to the stable when he worked there. He didn't remember the day. He took four of them about three or four days afterward to the city stables. Another man took four others. Hunton told him to take them there. The four he took were the same that he took from the depot to Conant's and as near as he could remember the other four were of the Boston lot.

Mr. Burke cross examined him briefly.

Winthrop R. Ellison a machinery agent was in Lowell in the spring and became acquainted with the members of the government while selling the city a stone crusher. He met Cheney in Welch and Hall's stable on Saturday, April 11. Mr. Hunton was with him. He talked with them for four minutes.

Dr. C. R. Wood, a local veterinary surgeon, testified that at the request of the city solicitor, he examined 16 horses at the city stables on June 19. Objection was made by Mr. Burke to his testimony regarding the condition of the animals, on the ground that the horses had not been identified, and furthermore that a considerable period of time had elapsed before April 13 and June 19. The discussion of the point took up considerable time.

The testimony was allowed to proceed on the understanding that evidence would be introduced later to indentify them.

Dr. Wood said he examined 16 horses, and found all of them sound but two.

Alderman Crowley was then called, and he testified that on the night when the order for an investigation went in he met several councilmen and he informed them of the fact. Then he was introduced to Councilman Maguire. He told him that he was sorry to have him in the mess, and asked him if there was anything crooked in the deal. He replied that he didn't know of anything, and witness continued: "Then I said, 'We are going to show up these A. P. A. reformers,' and Maguire replied, "Well, they stood by me and I'll stand by them!"

On cross-examination Mr. Crowley said that he had also said that Cheney was not as bad as the rest.

Then Mr. Burke asked him a question and he started to rehearse a conversation with the mayor when Mr. Burke objected and Mr. Crowley kept right on until Mr. Burke said to the court: "Your Honor, I wish you'd object. He's a lawyer."

"You were discussing the political aspect with Councilman Maguire?" asked Mr. Burke.

"No. I was telling him that I was sorry to see a Democrat in such bad company."

Frank L. Rollins' a stenographer, who took down the evidence at the hearing was put on with his type-written copy just before the noon adjournment. Mr. Burke objected to the admission of his testimony regarding Clapp's testimony at the hearing.

As Mr. Rollins' would take up considerable time John A. Sawtelle was put on and he said that on one Sunday in April he talked with Clapp telling him that Conant had bought six green horses in Boston.

Mr. Rollins then proceeded to read the testimony of Clapp, given at the hearing.

Afternoon Session.

At the beginning of the afternoon session Mr. Rollins took the stand and proceeded to read from his report of the hearing before the investigating committee the testimony of Mr. Clapp, which took up some little time, and all of which was reported in the Sun at the time of the hearing.

Puritana

Why They Take Puritana.

WHY THEY GET WELL.

The proof does it.

That is why people begin to take Puritana.

People find that their neighbors have tried it.

Their friends have tried it.

Men and women in every walk of life have tried it.

A man suffers.

Perhaps he has suffered for years.

He has tried many things.

They have all failed.

He reads a Puritana testimonial.

He reads another.

He sees new ones wherever he looks.

Some of the writers are in his own town.

Some in his own business.

Some he can see.

Some he can write to.

Some have been cured of his own ailment.

Some of other ailments.

All are grateful.

All are glad to tell suffering people how Puritana gave them relief.

They are approachable folks, and their voluntary testimonials count.

Some live in town.

Some in the country.

Some hold office.

Some vote.

But all are honest and sincere.

That is why any one can prove for himself the genuineness of Puritana cures.

Puritana patients get well.

This is a fact.

There are reasons for it.

Puritana is the discovery of Prof. Dixi Crosby.

He was the greatest New Hampshire physician of his day.

He was at the head of the Dartmouth Medical College for a generation.

He used common sense, and found that disease or health came to the body through the stomach.

He scientifically compounded a stomach medicine from the harmless products of nature.

This is Puritana.

It makes the stomach right.

That is why it makes the health right.

With a sound stomach no one can help being well.

That is why Puritana patients get well.

Chemists say that Puritana is a good medicine.

They also say it is well made.

THEATRICAL NEWS.

Music Hall.

The majority of Lowell people have either read or heard of Robert Louis Stevenson's famous novel, "Dr. Jekyll and Mr. Hyde." It was first dramatized by Mr. Richard Mansfield, and since that time the leading actor making the play his leading work is Mr. Charles Leonard Fletcher. So perfect and entertaining is his work, that Mr. Mansfield cheerfully gave him permission to use his repertoire. This is alone a great card. Manager Boody of Music hall is to be congratulated upon securing Mr. Fletcher and his star company to give their great scenic and comedy production of Dr. Jekyll and Mr. Hyde" at Music hall. The company scored another success last night and were liberally applauded by a well filled house.

A Beautiful Production.

Never has a play been presented in Lowell with such perfect detail as "A Scrap of Paper," now being played at the Savoy. During its run at Wallick's theatre, N. Y., the stage never presented such pictures. Lowell is playing in great luck in having such a company and such productions for a steady diet and not only that the public appreciate it, and the houses considering the political times are more than satisfactory. The company next Friday afternoon, Oct. 30, will play "Honor Bound" and the second act of "Babe" at the Highland club at 2.30. The entire company will appear. Next Monday the "Arabian Nights" the three act farce will be presented at the Savoy with Weston as "Humming Top."

THE MULE SPINNERS

Resisting Reductions Made For Political Effect.

The Mule Spinners' union had its regular meeting last night with National President Michael Duggan in the chair. The question of reduction in wages of the spinners in other cities was discussed and it was decided to call a meeting of the national executive council to take place not later than Friday morning in order that the result of the meeting may be made known to the members of the union at Friday night's session.

The cities where wages have been decreased are Dover, N. H., Great Falls, N. H., Salmon Falls, N. H., Holyoke, Mass., and Somersworth. The executive council will determine whether or not it is feasible to order a strike and if so to increase the assessment of the members to assist the strikers.

A STANDING MENACE

To Peace and Health Cured by the Standing Remedy in Lowell.

To those whose employment requires constant standing come evils arising from organs unable to stand the years of strain without crying out. The kidneys feel the strain of such occupations sooner and more keenly than any other. Located directly under the small of the back on each side of the spine, they produce backache as it is termed, and of the kind that increases in duration and intensity until life is made wretched. Following close on the heels of backache come urinary troubles and irregularities, not only painful but dangerous and disagreeable beyond measure. Under such conditions do you wonder that many take interest in a subject much written about today, "Is life worth living?" The sick answer, No; the well laugh at the absurdity of the question. Health determines it.

Mrs. Mary Traynor residing at 28 Pearl street, Lowell, has stood all day for years at a spooling machine. This brought kidney backache, which later developed by urinary trouble into a worst stage. Health and added weight seemed to return when taking a rest in the country during vacation, only to be rapidly lost again on return to work. Her back ached incessantly, dizziness and headache, and a constant desire to sit down, and torture to rise again. The urine was high colored with reddish deposit and inflammation of membranes. She adds: "I did not know what to do, having doctored without success, and I was discouraged. I heard of Doan's Kidney Pills and although I had little faith in them, I got a box at Ellingwood & Co's, Merrimack and Central streets, and after a few doses I felt very much better, and continuing their use, the backache left me, the stiffness was gone, my head was clear, I have no urinary trouble whatever and I feel like another person.

THE BON MARCHE

Plan of informing the PUBLIC from day to day of the leaders for each day's trade has contributed enormously to the great growth of general trade. Every lady will be interested in what we have to relate today regarding our Glove, Ribbon and Corset flyers for this Wednesday, Thursday, Friday and Saturday trade, and also the kitchen requisites which are marked at prices to suit any pocket book.

GLOVES.

You will find no better glove stock than ours. For what can be better than the best. Our stock is of the best and this doesn't mean that the prices are way up either. For instance:

1 lot button and lacing Kid Gloves, 59c, black and colors.

1 lot Jobber's seconds Foster lacing and 2 clasp Kid Gloves, 75c, worth as high as $1.50. This lot are imperfect Gloves, remade which will in no way impair the wear of the gloves.

The Bon Marche $1.00, $1.25 and $1.50 Kid Dogskin and Antelope Gloves, in lacing, clasp and button, are well known by the ladies of Lowell and vicinity as best assorted lines in the city. We fit and keep in repair gloves at $1.00 a pair and over.

Chamois Gloves (the only washable gloves), we keep the two best numbers, 69 and 100. Every pair warranted to wash and wear.

Ladies' Cashmere Gloves. Our usual values prevail in this line. The best the market affords at 19c the pair is here.

Silk mittens in all weights for driving or street wear, embroidered or otherwise, at prices which seem to be less than the price of the material to make them with. We commence them at 50c and run to $1.50.

RIBBONS.

The Bon Marche Ribbon stock calls for more than passing comment. It's a stock to enthuse over. There's been nothing slighted, nothing overlooked that would help to make this the most useful Ribbon Department in this region. Only a few of the many choice bargains get space in this issue. M. M. A. PICTURES

The Common Council Does Not Want Them.

THE PROJECT KILLED AT LAST NIGHT'S MEETING.

Mayor Courtney Vetoed the $10,000 Loan Resolution.

The M. M. A. picture project was killed in the common council last night. Councilman White asked that the resolution be taken from the table and his request was granted by a vote of 14 to 8.

Then came a motion from Mr. Hunton to indefinitely postpone action on the resolution. The motion was opposed by Mr. Hounsell who said the council had chewed over the matter long enough and therefore be believed in referring the matter to the aldermen.

Mr. O'Hare objected to reference to the upper board and said the matter should be settled by the councilmen.

Mr. Nay wanted to know if the city would be any poorer for purchasing the portraits. "The money does not go out of the city," said he, "but would go into the pockets of Lowell citizens who have done much to build the city and make it what it is. The society is now somewhat run down and those who have borne its expenses can no longer afford it."

Mr. Drew and Mr. George opposed the purchase and so did Mr. Miskella who urged immediate action on the resolution and made a strong plea to the councilmen to vote against it.

The resolution was then defeated on a tie vote, 11 in favor and 11 against.

Resolutions were passed to transfer $10,939.19 from the appropriation for paving to that for roads and bridges; $1500 from state aid to soldiers' relief appropriation; $15,000 to pauper fund from the appropriation for interest; $12,500 from the reserved fund; $10,000 for health appropriation and $2500 for lighting. Also to take the amount due from the commonwealth on account of the corporation tax, $65,000, to be divided as follows: Schools, $25,000; fire department, $15,000; pauper, $10,000; lighting, $6500; police, $5500; health, $2000; commons, $1000.

The resolution to borrow $50,000, the money to be spent, $30,000 for schools, $10,000 for police, $5000 for lighting and $5000 for fire department, received its final passage.

Mayor Courtney vetoed the resolution to borrow $10,000 for the Wilder street bridge and for work on the Pawtucket street grade crossing. He expressed the belief that it is better to have a separate temporary loan for the grade crossing work and that it should be $20,000 inasmuch as the railroad will pay 90 per cent. of the cost of abolishing the grade crossing.

The veto was sustained.

Mr. Hunton said he had heard on good authority that it was the duty of the Boston and Maine railroad to repair the Wilder street bridge and a motion that the city solicitor be requested to look the matter up, passed without dissent.

It was voted to accept the sidewalk in front of the premises of A. D. Mitten at Fowell and A streets.

Petitions asking that Dunfey street, Avon and Mt. Hope streets be laid out and accepted, were given leave to withdraw.

WILL OF J. B. FRENCH

IN LITIGATION OVER $1000 BEQUEST TO ORPHANAGE.

Several Institutions Claim the Money and the Heirs Also Want It.

A case arising from a clause in the will of Josiah French, was tried in the Supreme Judicial court at Cambridge yesterday. It was on petition of Benjamin Dean to decide which orphanage or Little Wanderers' home in Lowell should receive the $1,000 left to such institution under the will.

C. H. Conant of Lowell appeared for the Theodore Edson orphanage of Lowell and said that at the time the will was dated there existed in Lowell a St. Mary's orphanage, but that this corporation had dissolved in 1884, and the Theodore Edson orphanage was incorporated in its stead. The testator surely meant to have the money go to that institution, he claimed.

Frederick Lawton appeared for the Ayer home for Young Women and Children, which had started a few months before the testator's death, and which, he argued, should have the benefit of the bequest.

Burke, Marshall & Corbett appeared for the other heirs of the will and put in the claim that the money should revert to the estate and the trustee pay it over to the heirs.

Judge Knowlton decided that as the bequest was a public one the attorney general should be made a party to the case, and he allowed a motion to that effect by Mr. Dean.

FUNERALS.

HEELAND—The funeral of Mrs. Jeannette Heeland took place this afternoon from her mother's home on Tremont street. Service was held at the house, Rev. George H. Johnson officiating and appropriate selections were rendered by a quartette. The funeral was very largely attended and among those present was Mayor Courtney. The burial was in the family lot in the Edson cemetery where her sister, Miss Agnes Elvin was buried several years ago.

Over the grave were placed several beautiful floral offerings. A large crescent inscribed, "wife," was the offering of her husband, William Heeland, the well known barber. A magnificent pillow sent by Mr. and Mrs. William F. Elvin, bore the inscription, "Dear Sister." Mr. Hobart sent a standing lyre inscribed "Rest," and a crescent star and bar inscribed "Nettie," had a card attached to it, "sympathy of Miss Lapierre."

The pall bearers were four cousins of the deceased John McLaughlin, William McLaughlin, Joseph Fleming and James McLaughlin.

Deceased was a well known elocutionist and it was she who in behalf of the children presented Charles Stewart Parnell's sister a large bouquet and the greeting of the young people on the occasion of her visit to this city. She leaves a widowed mother who is almost prostrated with grief at the death of her only daughter. A husband, William Heeland, and a brother William Elvin also survive her.

GALLAGHER—The funeral of Daniel Gallagher took place from the home of his parents, 80 Dummer street, yesterday afternoon at 2 o'clock. Members of the Immaculate Conception society of St. Patrick's church were the bearers: Daniel Quinn, John J. Hayes, Charles Archibald, John Donohue, Patrick Delmore and Earnest Mitchell. Among the number of floral offerings were beautiful pieces from the Sunday school class of which the deceased was a member and the Immaculate Conception society. Rev. Fr. Gleason conducted the services at the Catholic cemetery.

DOYLE—Thomas F. Doyle, aged 42 years, died Sunday at the city hospital. Deceased was a well known Ward Two resident and for some time past kept a store at the corner of Common and Salem streets. He has been ailing for many years past. The funeral took place Monday morning and was largely attended. At St. Patrick's church a high mass of requiem was celebrated for the repose of his soul. Burial was in the Catholic cemetery.

WALSH—The funeral of Emil Walsh took place this morning from Undertaker O'Donnell's warerooms and the interment was in the Catholic cemetery.

POLICE COURT.

Hadley, J.

Ten drunks paid $1.00 each this morning.

Kate Conniff, who Officer Corcoran said is the most mischievous woman on the street was sent to Sherburne for eighteen months.

Hattie McEwan, another woman to whom the officers gave a record was sent to Sherburne for fifteen months.

Kate Smith got four months in the workhouse.

Peter Burns, charged with drunkenness, was held in $2 to Nov. 4.

Fred Landry was sent to the house of correction for ten months.

Fred stole two overcoats, a vest, and a pair of trousers from his father, and the court thought a ten months' sentence about right.

Music Hall.

Rice and Barton's Gaiety Spectacular Extravaganza company comes to Music hall for three days, beginning Thursday, with the usual Saturday matinee. They will present their new absurdity "A Trip to Boston." In the olio will be found up to date specialties interspersed with groupings, in which many models will be seen. The burlesque is "Naughty Coney Island," based on every day life on the island, introducing all the odd characters, who combine to make the countryman's visit memorable. Among the artists are Rice and Barton, Frankie Haines, Washburn sisters, Crawford and Manning, Irvin T. Bush, Phillips and Robinson and Clara Lawrence.

HOT FROM THE WIRE.

Hon. Edward J. Jenkins, one of the most prominent lawyers in Boston was disbarred this morning.

The price of bread has gone up 1-2 d and in London the increase is being acutely felt in the poorer districts, where many families have in consequence been obliged to reduce supplies.

THE CITY CHARTER

To Provide Better Government in Our City.

PURCHASING AGENT AND BIDS ON CONTRACT.

The Republicans are to Vote Against Measure.

In order that voters may understand fully what the revised city charter provides the whole measure is here printed. It is one that will commend itself to every good citizen as calculated to promote good government and economy in running the same. If favored by a majority of those who vote upon the question it will take effect, otherwise it will be rejected. The republicans, it is understood, will vote against it because it increases the mayor's power and gives him the appointment of a purchasing agent.

City Charter Revision.

Sec. 1. All executive powers which are now by law vested in the city council of the city of Lowell, or either branch thereof, shall hereafter be vested in and exercised by the mayor of said city, except as hereinafter otherwise provided.

Sec. 2. The mayor may suspend or remove any executive or administrative officer, except as hereinafter provided, for such cause as he shall deem sufficient, and shall set forth in the order of suspension or removal his reasons therefor, provided that no removal shall be made upon partisan grounds. The order of suspension or removal shall not take effect until it is approved by the city council voting by yeas and nays. The city council may by a two thirds vote in each branch, voting by yeas and nays, remove any of said officers without the consent of the mayor; provided, however, that nothing contained in this section shall apply to any of the following departments, namely:—The school committee, the police commission, the water board, the overseers of the poor, or the trustees of the public library.

Sec. 3. There shall be a department of supplies, and all material and supplies for the city shall be purchased by the chief or head of such department, subject to the approval of the mayor. So far as is practicable purchases shall be after public advertisement and under contract approved by the mayor. All bills for material and supplies shall show the date of purchase, date of delivery, the unit of price, the quality and quantity of articles purchased and received, the number and date of the order for purchase, and if the purchase is under contract, the number and date of the contract, and shall be entered in full in an invoice book, which shall always be open to public inspection. The chief of this department shall be elected by the qualified voters of the city voting at the annual municipal election, and shall hold his office for the next municipal year thereafter, subject to the provisions of section two of this act.

Sec. 4. The mayor shall cause to be kept a record of all his official acts, and to aid him in his official duties may appoint one or more clerks.

Sec. 5. The heads of the several departments and offices shall have the power to appoint and employ and to discharge all subordinate officers and employes in their respective departments; and they shall keep a record, subject to inspection, of all so appointed and employed and of all discharged, and in all cases of discharge the grounds therefor, provided however, that no removals shall be made upon partisan grounds.

Sec. 6. The heads of the several departments and offices shall have the general charge and management of all matters pertaining to their respective departments and shall make and execute all contracts necessary therefor, except for the purchase of material and supplies; but every contract made as aforesaid in which the amount involved exceeds three hundred dollars shall be approved by the mayor before going into effect; provided that nothing in this section shall be constructed to prevent the city council by ordinance from transferring any of the duties imposed upon an appointed head of a department by this act or by ordinance, excepting the purchase of material and supplies, to another head of a department or board or commission.

Sec. 6. Neither the city council nor either branch thereof, nor any committee or member thereof, shall directly or indirectly take part in the employment of labor, the purchase of material, the construction, alteration or repair of any public works or other property, or in the care, custody or management of the same, or in general in the expenditure of public money or in the conduct of the executive or administrative business of the city, except as may be necessary for defraying the contingent and incidental expenses of the city council or of either branch thereof; nor shall they or either of them take part in the making of contracts.

Sec. 8. No sum appropriated for a specific purpose shall be expended for any other purpose; and no expenditure shall be made and no liability shall be incurred by or on behalf of the city until the city council has duly voted an appropriation sufficient to meet such expenditure or liability, together with all prior unpaid liabilities which are payable therefrom, except that after the expiration of the financial year and before the making of the regular annual appropriations liabilities payable out of the regular appropriation may be incurred to an amount not exceeding one-sixth of the total of the appropriation made for similar purposes in the preceding year; provided, however, that nothing herein contained shall be construed to restrict or limit the school committee in any expenditure which it is now or may be hereafter authorized to make under any general law of the commonwealth, or to restrict or limit payments on account of the permanent or temporary debt, or such as are required by law to be made to the commonwealth.

Sec. 9 All revenues and all moneys accruing to the city of Lowell from any source whatever, except trust funds and the revenues of the water department, shall when collected or paid into the treasury be carried to one general account to be known as the general treasury fund; and all appropriations by or on behalf of said city, except from trust funds and on account of the water department, shall be from such fund and as provided in section ten of this act.

Sec. 10. All bills or other claims, before they are finally certified by the auditor or paid, shall pass the inspection of a committee of the city council on accounts. Said committee shall consist of one member of the board of aldermen and two members of the common council, to be elected annually by ballot by the body they respectively represent. Said committee may report any such bill or claim to the city council with their reasons therefor, and no bill or claim so reported shall be passed by the auditor or be paid without the consent of the council. Said committee may require the opinion of the city solicitor as to the legality of a bill or other claim.

Sec. 11.—A yea and nay vote of the members of the city council shall be required to pass any order or vote involving the expenditure or appropriation of the public moneys or involving any debt or liability, and said vote shall be entered upon the records of each branch of the city council.

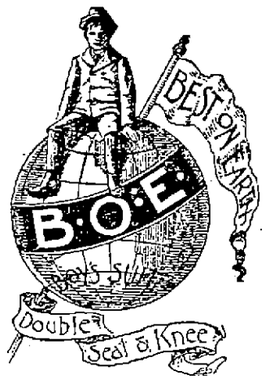

Sec. 12. Less than a quorum of either branch of the city council, or of the school committee, or of the board of overseers of the poor, may adjourn to a fixed day earlier than the next regular meeting, and shall have power to compel the attendance of absent members in such manner as the city council may by ordinance provide.

Sec. 13.—All acts or parts of acts and all ordinances of the city of Lowell inconsistent herewith are hereby repealed and annulled: provided, that no act or ordinance heretofore repealed shall thereby be revived; and provided, also, that nothing in this act shall be taken to prohibit the city council from abolishing any department, board, office or commission created by ordinance.

Sec. 14. The question of the acceptance of this act shall be submitted to the qualified voters of the city of Lowell at the annual state election in the present year, and the affirmative votes of a majority of the voters present and voting thereon shall be required for such acceptance. If so accepted as much thereof as provides for the election of a chief of the department of supplies shall take effect at the next annual municipal election, and the act shall take full effect on the first Monday of January in the year of eighteen hundred and ninety-seven.

Approved May 16, 1896.

SUPERIOR COURT.

The Horse Case Lags While Testimony is Read.

The entire afternoon session yesterday was taken up with the reading of testimony of Clapp and Hunton given at the investigation. Stenographer Rollins read the report in an agreeable manner but as all the testimony was old to all but the jury the spectators lost interest in it after half an hour and many dozed off quietly awakening with a start at each slight noise. The jury, however, appeared deeply interested in the reading.

A couple of the defendants who did not seem much disturbed at the course of events also had a nap.

At four o'clock Mr. Rollins was not near finished and court adjourned until this morning with indications pointing to the last of the week for the termination of the celebrated case.

Morning's Session.

Today's session promises to be long drawn out, dull and uninteresting.

At the opening of the session City Engineer Bowers was recalled and he testified that while he had been serving as city engineer there was no regular practice in the purchase of horses. In some years it is done by the full committee and in others it was done by the sub committee appointed to act with the superintendent of streets.

Mr. Rollins, the stenographer at the hearing before the city investigation, resumed the reading of the testimony alleged to have been given by Hunton at the hearing.

When the stenographer was about to read a statement of Mr. Burke, council for Mr. Hunton at the hearing, Judge Hardy asked if it was desired to have that read, and the district attorney replied affirmatively.

The court said in answer to Mr. Burke and Mr. Hogan that he noted exceptions to the admission of all this testimony read by the stenographer but he would also hear objections to the admission of any portion of the testimony.

Then Mr. Rollins resumed the reading of his stenographic report of Mr. Hunton's answers to questions at the hearing, the jury appearing deeply interested in the proceedings.

When Mr. Hunton's testimony was furnished that of Mr. Clapp at the second hearing was read the reading taking up considerable time.

To Contest Case.

THE SUN EXTRA 5 O'CLOCK

HANGED HIMSELF

Ben Nealey, Aged 60, Found Dead.

IN A WATER CLOSET IN DALY'S BLOCK.

Had Been Ill and Very Despondent.

"Ben" Nealey, a well known character about old Ward Three, about 60 years of age, and a tinker by occupation, was found hanging in a water closet in the block at the corner of Gorham and Keene streets, about 6 o'clock this morning.

Nealey, it is said, has a wife and six children residing on Abbott street, but it is known that for the past week or more he has lived in this block with Daniel Gallagher and other tinkers who live there.

A woman named Julia McCleary discovered the suicide but in the dark was unaware that the man was dead. Her husband went out, however, and found Nealey dead though still warm hanging by a piece of rope. The closet is separated from the entry by a partition not over 5 feet 10 inches or six feet high and in order to hang himself it was necessary for Nealey to bend his legs to keep his feet off the ground and this he did. It is supposed he hanged himself about five o'clock.

The other families in this block state that Nealey has been suffering terribly with Bright's disease and made two or more requests that the ambulance call for him, expecting it surely last night.

It is supposed that when Nealey saw that his appeal to be taken to an hospital was unheeded it so discouraged him that he decided to end his life immediately.

The body was taken to an undertaker's.

GLEASON WINS.

The Hon. P. J. Favored by the Court's Decision.

By Associated Press to the Sun.

Albany, N. Y.—Oct. 28.—Attorney General Hancock today rendered a decision, refusing to grant the application of certain citizens for permission to begin quo warranto proceedings to test the title of Patrick J. Gleason to the office of Mayor of Long Island city, on the ground that he was not a naturalized citizen of the United States.

BIG SILVER RALLY

At Huntington Hall This Evening With Distinguished Speakers.

There will be a grand rally in Huntington hall tonight, under the auspices of the Silver League, at which Judge Slanker of Chicago will speak. He is an able speaker and will draw a vast audience. Mr. Farrington of Boston will also speak.

Saturday Night's Rally.

"Jerry" O'Sullivan, the "Silver" from Lawrence, is going to address a Lowell audience in Huntington hall, next Saturday night. "Jerry" comes upon invitation of John H. Harrington and will be warmly greeted by the Lowell audience. The other speakers will be George Fred Williams and Christopher T. Callahane. Edward D. McVey, Esq., will preside.

A Chance for Prophets.

Politicians who claim to be able to correctly size up the political situation should take advantage of the offer of O'Hearn & Dowd, to the person who presents the most accurate forecast of the result of the gubernatorial contest in this city. The Sun yesterday for the first time printed on the fourth page a blank which every guesser should fill out and send to O'Hearn & Dowd's before next Saturday night at 10 o'clock.

The one who furnishes the closest estimate of the vote in Lowell for Wolcott and Williams will get a custom made suit of clothes valued at $25.

BRYAN NOT EGGED

Some Scamp Students Threw Eggs at Parade

BUT THEY MISSED THEIR INTENDED MARK.

Matters Culled From the Political Field.

The morning papers reported Mr. Bryan "egged" at Chicago but although a few boys, supposed to be students of a business college, threw eggs from the windows of their building, none of them came near Mr. or Mrs. Bryan in their carriage. They knew nothing of the episode till after the parade in their honor.

In the 25th district, which is overwhelmingly republican, the democrats have nominated three clever and clean young men: John Conroy is an employe of the Lowell and Suburban road; Charles W. Whitman works at C. I. Hood's laboratory, and George Byam is a Chelmsford milk-man. These three young men will receive republican votes, but of course not sufficient to overcome the big majority. Were the district closer, it is stated that Whitman would be a winner, for the republicans are going to cut "Jimmie Ramsey. Peter Caddell and his followers, who "Jimmie's" friends claim are A. P. As, will give him the go-by. Peter is sore over since caucus night, and it will be some time before the factions harmonize again. In fact, the differences will be felt in the battle for municipal offices.

Secretary Tully, of the democratic city committee, stamps as a falsehood the statement in a morning paper that he said he had lost the copy of the city committee rules.

The belief grows stronger that "Joe" Miller will win the republican mayoralty nomination. Many republicans who do not intend to vote for Miller say that he will win, because he has the party organization with him and will draw from the Wilson, Tryder and Marston forces to a great extent. It begins to look as though either Miller or Col. Bennett will win.

James Kennedy has already commenced an active canvass for the democratic councilmanic nomination in Ward two, and his friends intend to urge his candidacy upon the voters from now till caucus night.

Tomorrow night the 110 club will have a flag raising over at William Cogger's house in Concord street.

John H. Sheehan is a candidate for the common council in Ward five.

Jeremiah McGlinchey's friends are working hard for his nomination for overseer of the poor in Ward Five. He is a prominent grocer on Gorham street, a good democrat and a general hustler. As he knows the people of his ward thoroughly and has a wide business experience, he would make an overseer that would look out for the poor in his ward. Mr M'Glinchey deserves the nomination his friends say for the reason that he has helped a great many poor people at his own expense.

The Lawrence Sun says: "Candidate Harrington is making a sturdy fight in this district for congress, and without much doubt, will be successfully landed. No corporation has a mortgage on him, and he will vote and act in Washington as becomes the representative of one of the most intelligent constituencies in the country.

The voters of the 26th district have an opportunity of casting their ballots for Matthew M. Mansfield, John J. Gordon and Rollin Stickney, three candidates on the democratic ticket well deserving of general support. The service of Mr. Mansfield and Mr. Gordon in the city council is well known and recognized by the democrats of the entire city, while Mr. Stickney has always been a faithful worker in the ranks. There is an opportunity to elect all three of these men, and democrats should see to it that it be accomplished.

In the 27th district the candidates are Jos. Donohue and M. F. Coughlin. Mr. Donohue is the well known and popular overseer of the poor, and Mr. Coughlin is a Billerica democrat who will run well in the suburban end of the district. There is no reason why two of these should not be elected. Mr. Donohue is an able fighter, and it is expected that he will down one of his republican opponents and serve in the next legislature. He deserves promotion and the democrats of the 27th district are determined that he will have it. They are also determined, if possible, to elect Mr. Coughlin.

City Clerk Dadman has notified all election officers to be at city hall Saturday night and receive instructions.

There was a meeting of the republican city committee last night when arrangements were made for getting out the voters on election day. Another meeting will be held Friday evening.

The Young Men's republican club met last evening and appointed a committee to prepare a big bonfire for Saturday night.

All the local republican campaign clubs went to Nashua last night and took part in the big parade.

The French republican voters of Ward six have expressed a preference for J. H. Beaulieu for the councilmanic nomination.

The Peabody Rally.

The Salem News in its Peabody items of Oct. 27, has has the following notice of the democratic rally at Peabody on Monday night.

Peabody, Oct. 27—The democratic rally in the town hall last evening was attended by an enthusiastic audience of 500 people, nearly all of whom remained to the close, not withstanding the fact that there was no music or other attraction than the speaking. The latter was good both speakers being rattling good campaign orators, who had no trouble in holding the attention of their hearers. They evidently believed what they talked and spoke in a convincing and earnest manner.

The meeting was called to order at 8 o'clock by C. J. Houghton who introduced Nathan A. Bushby as presiding officer. Upon assuming the chair he briefly addressed the meeting, bringing his remarks to a close by presenting Hon. J. H. Harrington of Lowell, candidate for congress.

Mr. Harrington spoke for an hour and a quarter, discussing the currency question in a manner which showed much reading and thought on the subject.

The last speaker was Oliver Downing of Boston, a veteran of the war and a life long republican. He told what kind of an anarchist he was, as he called it, and gave some of his personal history, showing a record to be proud of. When only 16 years old he belonged to the republican club and in the platform of the party that year there was a plank condemning the supreme court. He compared the campaign of Lincoln with that of Bryan, saying that the churches, the newspapers, the business men and even his own party were against him as they are against Bryan but the great common people were with him and triumphantly elected him. Mr. Downing discussed the money question at lenght and pictured out a season of great prosperity following the remonetization of silver in this country. He maintained that with free coinage would come the enhancement of all values, at the restoration of the commercial supremacy of the United States on the seas.

In view of the above it is amusing to note how some people acquire titles when they leave home. All through the west Hon. George A. Marden is written down as Gen. Marden. But this is not more remarkable than the case of B. D. O'Connell, Esq., who was taken for Bryan in Pennsylvania as he and other speakers with a following of nearly a thousand marched along the street from one hall to another. The crowd seeing Mr. O'Connell began to shout "Bryan! Bryan!" One of the speakers delivered a speech introducing the Lowell orator saying he was not Bryan but Hon. B. D. O'Connell of Lowell.

Herbert N. Casson, the great labor orator, whose labor church at Lynn has gained national fame, will speak here on Sunday. Mr. Casson is one of the greatest labor orators on this continent, and will undoubtedly draw a packed house.

FOUR MONTHS SENTENCE

For Stealing a Pair of Trousers From a Room.

Inspectors Laflamme and Allon captured a pretty cunning and brazen fellow last night when they placed John Legare under arrest. Conrad Heon keeps a boarding house and Legare is one of his lodgers. Several days ago a little fellow named Montbleau and his aunt who are Heon's neighbors requested permission to use his clothes line to hang out their washing. Heon agreed and to place their clothes on the line they were obliged to enter Legare's room. Soon the Montbleau boy left and shortly after a pair of trousers were missing. The matter was reported to inspectors and Legare said his trunk had been opened and several articles were missing.

He blamed Montbleau but the boy stoutly denied that he was guilty. After some pretty close questioning, Legare admitted that he stole the trousers. He was sent to jail for months.

The Chicago grain elevator burned the other night did not quite turn the corner.

The Mail is disgruntled, because it sees defeat coming to its party. The gold men are on the run

Everybody is guessing the result of the election. One week more will end the guessing and the worry. Bryan will then be president elect.

Mr. Knox voted for the bill to cut off the appropriation of the Catholic Indian schools, a measure which was openly pushed forward by the A. P. A.

The school board has no use for filters favored by democrats. A republican filter is now to be sought, viz.; one that will extract all democratic microbes from the drinking water.

The republican trusts are apparently keeping up the price of wheat as they are keeping up the gold reserve until after election day. No matter who is elected there will then be a slump.

Will this city take the advice of the chairmen of the two great political parties and observe flag day. It seems that there is no particular point to the observance on such an occasion, especially as a double meaning is to be given according to the views of the decorators.

The advocates of the gold standard take comfort in the fact that the stream of gold has reversed its direction and now flows from England to America. They have helped the flow by cornering the wheat and charging a good price for it. England must buy her wheat here on account of the failure of the Indian crop whether she likes it or not.

That was a good point made by Hon. Pierre Humbert in his speech at Huntington hall last Saturday night. England must buy her wheat here so long as the Indian crop is short. For that she must pay gold. If America adopted free silver coinage, England would have to buy her silver with which to purchase wheat in India so that she would have to procure her wheat supply either directly from the United States, or with United States silver from India. That would give us a little corner on England.

The Mail is floundering in all directions on the money question. It says that it has proved repeatedly that gold has not appreciated since 1873. It has never proved anything of the kind and furthermore it cannot prove it to the satisfaction of any thinking man. The appreciation of gold since 1873 is an accepted fact by every paper and every man of truth in this country but of course the people and the men that ally themselves to the robber standard cannot afford to admit the truth, and they have no arguments to sustain their position.

The Supreme court on Monday made an important decision, Chief Justice Field and Judge Allen dissenting. It forbids strikers to parol in front of the premises of their former employes on the ground that such patrolling is a species of intimidation, to prevent others from taking their places, and also to prevent the public from patronizing the concern. This is another restriction imposed upon labor seeking justice. The decision is in a line with that of the Supreme court in the Debs case, and with important decisions rendered in England under like circumstances. The defendants in the case have been enjoined against maintaining the patrol and thus another legal precedent operating against strikers is established.

HARRISON'S WORDS.

In his last message to congress Dec. 6, 1892, President Harrison said: "I have not doubted, and have taken occasion to express that belief, as well in the invitations issued for this (the international monetary) conference as in my public message, that the free coinage of silver upon an agreed international ratio would greatly promote the interests of our people, and equally those of other nations. It is too early to predict what results may be accomplished by the conference. If any temporary check or delay intervenes, I believe that very soon commercial conditions will compel the now reluctant governments to unite with us in this movement to secure the enlargement of the volume of coined money needed for the transaction of the business of the world."

THE POLITICAL CAMPAIGN

OUR LEADER

OUR HERO

James Creelman, the chief traveling correspondent of the New York World, telegraphed to that newspaper on the first day of Bryan's final tour through Indiana as follows:

Great multitudes roared about him everywhere, but the Republican managers distributed yellow badges and urged the McKinley men to mass themselves at all points.

The result was bewildering. Mr. Bryan's way lay through the strong Republican district, and it was not until he reached Fort Wayne tonight, the Democratic stronghold of the state, that he swept all before him.

It is quite evident that Mr. Hanna's plan is to have counter demonstrations wherever Mr. Bryan appears until election day.

Never has Mr. Bryan shown his strong qualities to better advantage than today. All through the savage tumult he has been serene and undismayed. At times he has been for ten minutes continuously surrounded by yellow ribbons and Republicans shrieking McKinley's name in his face.

Whatever else Mr. Bryan may be, he is a man of steel nerves. The mob seems to inspire him, and the more brutally hostile a crowd is the calmer and bolder he grows.

I have known him for years, but he revealed himself in a new light today. Mrs. Bryan, too, faced the howling Republicans smilingly at her husband's side, flinging a rose here and there to a rapturous free silver man.

At the end of Bryan's second day in Indiana Mr. Creelman telegraphed to The World from Terre Haute as follows:

News reached him (Bryan) on the train today that Mr. Hanna's money is already moving like a tide through Indiana, and that the Republican leaders are trying to get Democrats to move out of their districts so that they may lose their votes.

Mr. Bryan's soul seems filled with the passion of the conflict. He is revolution incarnate. Today he spoke to more than 150,000 persons, and tonight Terre Haute is mob glorious. Whatever may be the result of this terrific campaign, Mr. Bryan has proved here, in the very heart of Indiana, that the free silver idea has taken hold of the common people.

All day he has declared that the war of money standards which has rent the Democratic party will not end on election day. Again and again he said that Democrats who desert now can never come back except after long penitence and mortification. From sunset until early morning bonfires danced on the night landscape.

He attacked Benjamin Harrison in his own state, accusing him of trying to advocate a gold standard under the cover of bimetallism. He lashed his audience into madness by appealing to them not to consent to foreign domination in American finance.

Bryan's Marvelous Endurance.

The fierceness of the conflict in this state was apparent everywhere as the special train fled from district to district. Great meetings, processions and barbecues were in progress, and hundred of orators were at work, and in the midst of all this thunderous confusion Mr. Bryan towers up a born leader of men. He may be defeated, but if he lives he will play a great part in the immediate future. I have watched him day after day, and he seems to grow stronger and more self reliant every hour. Nothing depresses or daunts him. His marvelous voice seems indestructible, and his brain is tireless.

Mr. Bryan seems to understand that the result of this best trial of strength in Indiana and Illinois depends upon himself, and he has concentrated all his powers in this one supreme effort to overcome the almost irresistible forces in the field against him.

This has been a day of color and strife. From the train windows the pictures of Bryan and McKinley could be seen in alternate farmhouse windows. Great crowds of men and women swept into the towns and cities where the multitudes roared about Mr. Bryan's carriage, and the rough roads sprawling through the farms were crowded with wagon loads of Democrats. Hundreds of young girls, with silver spangled blue skirts, sat astride of white horses at every stopping place. Every white horse in Indiana seemed to be in view today.

Crowds Were Democratic.

As the train neared the western section of the state the crowds grew larger and more purely Democratic. Mr. Bryan and his wife threw bushels of flowers from the end of the train. At times the demonstrations of the crowd reached the point of adoration. Men who could not reach his hand touched his coat, legs and feet. Some of them yelled till tears ran down their cheeks. Many were hysterical. Mark the political crusader as he moves along in the wild procession—a tall man in a well worn coat, with a dusty soft felt hat pulled down over his travel stained face, his eyes burning like coals of fire and his head and his powerful, priestlike face radiant with hope and courage. Around him swells the defiant shriek of his followers that "Wall street shall not prevail against the people."

So it was today at Decatur, Rochester, Huntington, Peru, Delphia, Frankfort, Lafayette, Crawfordsville, Greencastle, Brazil and Terre Haute. And so it will be in Illinois tomorrow. It is an irreconcilable conflict.

A CORNER IN GOLD.

That Such Is Intended Is Clearly Shown by Reports and Recent Movements.

Much is being made by the Republican newspapers out of the large gold imports as showing a prosperous condition of the country and the sufficiency of the single gold standard to furnish adequate protection to the holders of the government's promises to pay in the shape of legal tenders or other notes. But an inspection of the bank statement and the treasury figures giving the amount of the reserve fund is anything but reassuring to the average man.

It is evident that a large proportion of the gold in the country, either coined or available for coinage, has been hoarded, and thus withdrawn from circulation. The amount that has disappeared within the last two months is so large as to excite even the denizens of Wall street, who are accustomed to big transactions, and indicates with what ease the moneyed institutions and their customers could "corner" the entire available supply of that money which the Hanna party proposes to make the exclusive standard of the country, leaving the government helpless to redeem its pledges.

The weekly statement of the New York associated banks of Aug. 22 showed that they held $46,706,600 in specie, mostly in gold. The statement of Saturday, Oct. 17, showed that they held $59,136,400, or a gain in less than two months of $12,329,800. Since the gold movement set in this direction $48,211,129 has been imported. Of this amount $35,000,000 has been deposited in United States depositories, from which $10,000,000 has been withdrawn, leaving the net gain to the government reserve $25,000,000. This, with the increased holdings of the banks, leaves to be accounted for $10,871,329, which has disappeared from sight. That means that it is being hoarded in interior banks and safety deposit vaults.

On July 1, 1896, the treasury department reported that the total gold coin of the United States was $557,931,823 and that the gold bullion in the country was $92,268,956. Since then $48,211,129 in gold coin and bullion has been imported, making the total gold of which the treasury department takes cognizance, not all of which is necessarily in this country, $646,411,907. The gold which has been sequestered by the New York banks and the interior moneyed institutions in two months amounts to $28,211,129, or over 3½ per cent of the amount the government depends on to make good its notes. This is a startling aspect of the gold situation, showing that in a few months, even if importations continued at the present rate—which they are not likely to do, but are more apt to be reversed and an export movement set in—the banks and their allies could get control of such a large percentage of the gold available for government use as to seriously cripple it, if not to throw it into bankruptcy. These figures are all the more significant when it is remembered that the banks and other moneyed institutions already hold the greater proportion of the available gold. There is no escape from their grasp except by the adoption of the double standard and the placing of silver on a parity with the metal which they now control absolutely.—New York Journal.

Prussian Miners.

According to an interesting report published by Franke in the Prussian official mining organ there were in 1893 in the mines of the Dortmund district 206 lavatories and 167 collieries, with 233 shafts. In these washing facilities were afforded to 192,450 men, or 95.7 per cent of the entire mining population. The lavatories are quite close to the mouth of shaft or pit, the average distance being 100 feet. At several of the pits the lavatories can be reached without the men having to go out into the open air, and most of them are so arranged that the surrounding buildings afford protection against the weather. In 117 cases entirely separate buildings are used, and in 92 lavatories form the chief portion of the buildings, the other portions being used for lamps and for offices. The buildings are usually brick, roofed with wood, corrugated iron or roofing felt. The floors are of cement, asphalt, flags, plaster, bricks or wooden grids. In many cases the washing and dressing rooms are distinct. In 139 lavatories there are 365 baths, averaging one yard depth of water, and in 90 lavatories there are 2,526 shower baths, 10 of which are supplied with cold water and 2,516 with warm water. The water used is usually river or well water, mine water being used only when it is clean and good. The water is in most cases heated by steam. The lavatories are usually heated by steam pipes.

A CLERICAL CARPENTER.

Rev. H. V. Morgan of Alameda Building His Own Church.

On the slant of an unfinished roof, with his toes on one beam, his knees on another, a hammer in his hand and a sixpenny nail in his mouth, is an odd situation in which to find a clergyman.

Yet that is how I found the Rev. Henry Victor Morgan, pastor of the First Christian church of Alameda.

He was wearing a carpenter's apron, with the pockets full of nails; his shirt sleeves were rolled up, and his coat was carefully folded across a sawbuck under a tree.

The roof he was clinging to is the roof of a church at the corner of San Jose and Park avenues, Alameda. It is a church to house his flock, and he is spending his vacation building it.

An uncommon way of spending vacation—but it is the way of an uncommon man.

"We had to have a church," he explained with deprecating modesty as he backed down the ladder to chat with me, "and as I am pretty handy with tools and fond of manual labor I thought it would do me just as much good to put in my vacation building a church as it would to go mountain climbing or something of that sort. When money is as scarce as it is now, it is easier to labor than it is to raise the funds to pay the laborers. The members of the congregation are taking a lively interest in the building, and here are some of them working with me," and he pointed out Elder Hoyer in a pair of overalls and a straw hat, hoisting boards to the ridge of the roof, and Brothers Brown and Thompson sawing and hammering away as eagerly as boys with a brand new chest of tools.

"We expect to have it ready to hold services this fall. When the building is finished, there will be no debt hanging over it. Everything is paid for as we go along. To be sure, we had to raise the money to buy building materials as we needed them, but we have not bought a foot of lumber unless the money was in sight to pay for it. This building"—it is a large, airy, redwood structure, over 50 feet long and 30 feet wide—"will serve as a church until we can put up a better one. Then it will be moved to the back of the lot and used as a Sunday school room."—San Francisco Examiner.

NEW MONUMENT ON ANTIETAM.

Massachusetts Veterans to Erect a $25,000 Granite Structure.

Another $25,000 monument will shortly be erected on Antietam battlefield. This one will be erected by Massachusetts soldiers. The governor of Massachusetts and the council of Boston have approved the design chosen by the commission having in charge the selection of the monument to the Massachusetts troops who fell at the battle of Antietam. It will be built of Massachusetts granite, 21 feet long and 16 feet high, and will be erected on a mound standing 8 feet above the surrounding ground, at the fork of the two government roads, near the Nicodemus house and the famous old Dunker church.

On the bronze tablets to the right and left will be placed the numbers of the regiments engaged in the fight and their legend. At the rear of the centerpiece will be a map of the battlefield engraved on bronze, with the location of each regiment. In the center of the monument the coat of arms of Massachusetts will be placed. A path will be constructed around the mound, and granite posts with brass rails will surround the plot.

HER HAPPY DAY.

A CHARMING STORY OF MEDICINE AND MARRIAGE.

Two Open Letters From a Chicago Girl —How Happiness Came to Her.

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 5th, '95.

My dear Mrs. Pinkham:—A friend of mine, Mrs. ——, wants me to write you, because she says: "you did her so much good." I am desperate. Am nineteen years of age, tall, and weighed 138 pounds a year ago. I am now a mere skeleton. From your little book I think my trouble is profuse menstruation. My symptoms are * * * * etc.

Our doctor (my uncle) tells father that I am in consumption, and wants to take me to Florida. Please help me! Tell me what to do, and tell me quickly. I am engaged to be married in September. Shall I live to see the day? * * * *

LUCY E. W.

Chicago, June 16th, '95.

My dear Mrs. Pinkham:—

This is a happy day. I am well and gaining weight daily, but shall continue the treatment and Vegetable Compound during the summer, as you suggest. Uncle knows nothing about what you have done for me, because it would make things very unpleasant in the family. I would like to give you a testimonial to publish, but father would not allow it. * * * * I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude? * * * *

LUCY E. W.

Just such cases as the above leak out in women's circles, and that is why the confidence of the women of America is bestowed upon Mrs. Pinkham.

Why are not physicians more candid with women when suffering from such ailments?

Women want the truth, and if they cannot get it from their doctor, will seek it elsewhere.

A Real Advantage.

"I wonder why it is that young girls like to marry widowers?"

"It is because they know that widowers have been cured of their foolish illusions about women."—Chicago Record.

A Criticism.

"Was the joint debate interesting?"

"Well," replied the man with the red necktie and diamond pin, "it promised to be at one time. But it was de same old story. Dey jes' took turns standin off an darin one another, an neither one o' dem had de nerve ter start in for a clinch an mix things up fer sure."—Washington Star.

BRIGHT HOPES FOR BRYAN

Chairman Campau Predicts Victory With Great Majority.

Based on the Reports From Every State Chairman—Mr. Bryan Receives an Overwhelming Reception at Chicago—He Made Several Addresses to Big Crowds—Concert to Cheer Up McKinley—Williams Welcomed Home With Big Demonstration.

Chicago, Oct. 28.—Chairman Campau, of the Democratic national campaign committee, yesterday received telegraphic reports from each state chairman in the Union, giving estimates based on the latest information as to how the different states will record their votes next Tuesday. This is the last formal report that will be made by the chairman of the different state committees. Mr. Campau said:

"The Democratic national committee awaits the result of next week's election with serene confidence. William J. Bryan will be elected by the largest popular majority given any president in a quarter of a century. He will have more than 300 votes in the electoral college. Our reports from the middle western states show the effect of his wonderful campaigning tour through there. His majorities will be increased by many thousands, as a result of his great journey. Illinois, Michigan, Indiana, Idaho and Minnesota are absolutely safe, and our chance of success in Ohio and Wisconsin are more than flattering. The ever rising tide of enthusiasm for the great cause and the great leader of the common people, will sweep those states, along with their sisters, already won.

"Senator Gorman, one of the most astute political leaders of the Union, guarantees Maryland. Our reports from Kentucky are that Republican monopoly and Democratic treason will be outvoted by more than 40,000. The desperate and despotic effort to coerce and buy the American people is doomed to dismal and humiliating failure. The solid south and the silver west will join hands in impregnable alliance at the polls. The great middle west is with them in an invincible union. Our intrepid leader is sure to get a magnificent victory. These states will give their votes for him, without a shadow of doubt:

"Alabama, 11; California, 9; Florida, 4; Idaho, 3; Indiana, 15; Kansas, 10; Iowa, 13; Michigan, 14; Mississippi, 9; Montana, 3; Nevada, 3; North Dakota, 3; South Carolina, 9; Tennessee, 12; Utah, 3; Washington, 4; Wyoming, 3; Arkansas, 8; Colorado, 4; Georgia, 13; Illinois, 24; Iowa, 13; Kentucky, 13; Maryland, 8; Minnesota, 9; Missouri, 17; Nebraska, 8; North Carolina, 11; Oregon, 4; South Dakota, 4; Texas, 15; Virginia, 13; West Virginia, 6. Total, 283. In addition, our chances of success in these states are far better than those of the Republicans: Delaware, 3; Ohio, 23; Wisconsin, 12. Total, 38.

"It has been a long, hard campaign, but the people's cause has never ceased in its steady march to victory. Success is now in plain sight. The brag and bluster of the Republican national committee, in claiming 350 electoral votes, is shown in including such states as Texas, Idaho, Utah and Montana, where the majority for Bryan can only be measured by considering almost the whole voting population for him."

Mark A. Hanna has received the final reports of the chairmen of the state committees of Iowa, Kentucky, Minnesota, Michigan and Tennessee. All the state chairmen claimed that their states were safely for McKinley.

The Republican national committee yesterday issued a document in the form of a statement signed by Chief Arthur of the Locomotive Engineers, Grand Master Sargent of the Locomotive Firemen and F. W. Arnold, secretary-treasurer of the same organization. The statement is a denial that they are in favor of a "proclamation" issued, in which they are made to appear as being in favor of free silver. The facts of the case seem to be that three years ago they signed a memorial to congress, in which they favored free silver, and now this document has been put in circulation. Their explanation is given as follows

"No matter what our opinions may have been on the money question at the time of our signing the memorial, nearly three years ago, we have learned enough since on the subject to warrant us in denouncing the attempt at free coinage of silver at 16 to 1, believing it to be directly against the interests of labor, and also believing that under a condition of free coinage this country will be subjected to one of the most frightful panics that any country in this world has ever seen."

While the Democratic parade in honor of Mr. Bryan was passing the corner of Michigan avenue and Monroe streets yesterday, several eggs were thrown at it by young students in the Metropolitan Business college. None of the eggs came near Mr. Bryan or his wife, and neither of them knew of the episode until after the parade was over.

All sorts of stories were current about the affair, one of them being that Mrs. Bryan was struck with an egg, another that her carriage was hit. Neither of these stories were true, however. The first egg thrown at the parade came from a boy standing on the sidewalk in front of the Powers building, in which the Metropolitan Business college is situated. The egg was, to all appearances, thrown at the parade generally, and at no particular individual, as it was not hurled with any violence. A policeman, who witnessed the act, made a rush for the youngster, who darted up the stairway into the building. A second officer joined the first, and as the two ran for the doorway, several more eggs were thrown from the windows of the business college. The Cook County Marching club, which was escorting Mr. Bryan, received the bombardment, and several Prince Albert coats and glossy black ties were scattered with yellow. One or two eggs struck the sidewalk, and the crowd was decorated accordingly.

Later in the afternoon a delegation from the Cook county Democracy descended on the college with every symptom of hostility, and demanded that the students who had done the throwing be turned over to it. They held possession of the college for a th. , and finally left without learning who the miscreants were. The police had no better success, and Mr. Powers, the owner of the building, who is also the president of the college, said that he did not know who had thrown the eggs, although he admitted that they came from students in his institution. He was much distressed by the occurrence, and declared if he knew who had done the work he would have no hesitancy in turning them over to the police. Later in the day, a reporter for a morning Republican paper, while looking up the facts in the case, was severely beaten by a party of men who had taken part in the parade.

"I would be very glad to hear that the police have arrested those who insulted Mr. Bryan," said Chairman Hanna. "Whatever may have been their motive, the act was a most disgraceful one, and deserves the condemnation of every right-minded person. I hope the authorities will investigate the case fully, and properly punish the guilty ones. The Republican management have no sympathy with the people who engage in business of this kind."

Mr. Bryan arrived in Chicago at 3:30 p. m., over the Alton road, and was met at the depot by a large crowd. The Cook County Democratic Marching club and several silver clubs, with a large number of bands and drum corps, were waiting for him on Canal street, and as soon as he appeared the march was taken up for battery D, on Michigan avenue. A short parade through the downtown streets preceded the arrival at the battery, entering the city from Brighton park, where Mrs. Bryan appeared on the platform and distributed flowers. There were crowds at every street crossing until the Union depot was reached.

The first of the half dozen of Mr. Bryan's speeches, following the initial address at battery D, was delivered at Arcade hall, in the extreme southern portion of the city. The building was packed, and people were hanging on the rafters and others climbing on boxes, piled at every window, outside, to get a look at the candidate. Mr. Bryan was wildly cheered. Coming a mile closer to the business center of the city, Mr. Bryan next spoke at Boulevard hall. The place was packed to the utmost.

At Polish School hall, Mr. Bryan was greeted by an immense audience, which filled the hall to overflowing and reached far into the streets. Mr. Bryan dwelt largely upon the effects of falling prices and making dollars dear by making them scarce.

At the mammoth tent, Twenty-ninth and Halsted streets, and at Germania hall, Mr. Bryan was also greeted by immense crowds, and fulfilled their expectations with spirited addresses, differing from any spoken by him in Chicago, but not substantially varying from what he has said somewhere else.

IMPROMTU CONCERT.

One of the Features of a Big Day at McKinley's Home.

Canton, O., Oct. 28.—An inspiring scene was witnessed on the public square of Canton from 4 to 5 o'clock yesterday afternoon. Thousands of people gathered in front of the courthouse, on the public square and sang patriotic melodies, interspersed with music by the bands and frequent cheers. "Yankee Doodle," "The Star Spangled Banner," followed one another. Nor were "Dixie" and "Maryland, My Maryland" forgotten. Both were sung as lustily and patriotically as was "John Brown's Body" and "Marching Through Georgia." The affair was entirely impromptu, and ended at 5 o'clock with "Home, Sweet Home" from both the bands and the vast audience, which had gathered first as spectators, and then as participators in that great patriotic concert.

Yesterday's demonstration was full of features. It was notable for a large crowd, for the wide range of territory represented by the visiting delegations and for the varied interests of the people who came. The demonstration began in earnest at noon, with the arrival of a party representing three states, and it continued till dark. All that time McKinley's residence was surrounded by an interested crowd, shouting and cheering for the nominee and applauding the delegations, which marched up the street.

In the first party were 15 coachloads, coming from eastern West Virginia, western Maryland and Martin's Ferry, O., the latter delegation being composed of women, coming with greetings for Major McKinley and with beautiful flowers for Mrs. McKinley. Employes of three large Cleveland manufacturing concerns were next upon the scene, and when they gave way, it was to make room for more Ohio people, men and women from Mingo Junction, the employes of a large iron and steel plant and their wives and friends.

After these came the New England delegation. This party occupied a special train of six sleepers and two dining cars, and was on the way from 2 o'clock Monday afternoon till 2 o'clock yesterday afternoon. The party came largely from Boston, but a number of other New England towns were represented. It was composed of former Democrats as well as Republicans, and one of the men presented to Major McKinley was introduced as one who had for over 50 years voted nothing but the Democratic ticket, but who, this year, will vote for McKinley and Hobart. The visitors were introduced by Frank W. Rollins, ex-president of the New Hampshire senate. Many relics and mementoes of the visit were brought for Mrs. McKinley from Boston, from New Bedford and from historic Salem, including whales' teeth, twigs from a tree planted by Governor Endicott in 1628, and a gold witch spoon. The party remained in Canton till 6 o'clock.

No prettier sight has been witnessed in the whole campaign than in the reception of the Women's McKinley club of Norwalk, O. This club of some 300 members is splendidly organized and drilled, and when on parade carries campaign umbrellas, on which portraits of McKinley and Hobart are conspicuous. Mrs. McKinley, owing to sickness, could not receive the visitors. The major's mother and sister, Miss Helen McKinley, however, were at the house, and extended most cordial welcome to the callers. When Major McKinley concluded his address to the accompaniment of the Norwalk band, the women united in singing a campaign song to the tune of "Red, White and Blue," waving their handkerchiefs, and producing a most striking effect.

Popularity Sticks to Him.

Los Angeles, Oct. 28.—A steady, drizzling rain put a damper on what was calculated to be the grandest political demonstration ever held in California yesterday. The Business Men's Sound Money league had made most elaborate preparations for "Tom Reed day." Thousands of uniformed men were to have been in the line of march, and the business portion of the city had been gorgeously decorated. The rain forced the great crowds that came on special trains from all parts of California to seek the shelter of hallways and awnings, while only the most enthusiastic could be induced to the mud and join the procession. A carriage, drawn by four cream colored horses, carried the distinguished visitor in the parade. Although Mr. Reed was not scheduled to speak at Athletic park until 5 o'clock, thousands of people assembled at the grounds early in the morning and stood waiting in the rain. Twenty-five thousand people greeted Mr. Reed with wild cheering when he stepped to the platform, and the witty points of his speech were received with much appreciation.

Williams Warmly Welcomed.

Boston, Oct. 28.—After a two weeks' stumping tour in the middle west, George Fred Williams arrived home last night, and was received at the railroad station by some 5000 of his supporters. After heading a torchlight procession, with red fire and fireworks, Faneuil hall was reached, and here Mr. Williams was again greeted uproariously. Previous to Mr. Williams' arrival at Faneuil hall, a rally was held, under the auspices of the Bryan-Sewall-Williams club. So great was the crowd outside the hall that Mr. Williams was obliged to make a speech before he entered the hall, so that the Democratic candidate for governor was speaking outside Faneuil hall while the candidate for lieutenant governor, C. T. Callahan, was laying down Democratic principles inside the historic edifice.

A Word From Cleveland.

Indianapolis, Oct. 28.—Hon George W. Julian, who, in spite of years and imperfect health, made a recent speech for the Gold Standard Democracy, has received a letter from President Cleveland. The letter is written, as well as signed by the president's own hand. The president warmly commends the speech, and concludes as follows: "I cannot but believe that such expositions of true Democracy will have the effect of calling vast numbers of our party back to the support of genuine Democratic principles."

Special Rates For Politicians.

Chicago, Oct. 28.—Some of the western roads have, by the consent of connecting lines, been granting concessions of various kinds to both the leading political parties in the campaign, and the practice has been carried so far that the chairman of the Western Passenger association has been called upon to issue notice to the roads that the association, some time back, made special rates for all political gatherings, and that these rates must on no account be disturbed.

To Help Gold Democrats.

Washington, Oct. 28.—Secretary Herbert left here last night to make a series of speeches in Alabama, in advocacy of the election of Clark, the Gold Democratic candidate for congress from the district which he formerly represented. The secretary will remain over to vote for the Palmer and Buckner electors at Montgomery, next Tuesday, returning to Washington immediately thereafter.

Investigation Has Begun.

Montpelier, Vt., Oct. 28.—The legislative committee, which was recently appointed to investigate charges against Dr. Giddings, superintendent of the Waterbury insane asylum, begun the hearing this morning, at the county courthouse here. The committee will first go over the evidence presented by State Attorney Stanton before the grand jury, on which five indictments were found, and will then go to Waterbury to examine the institution. After returning here, a complete inquiry will be held.

Tried to Kill His Wife.

Portland, Me., Oct. 28.—William Parks, 46 years old, whose home is in Yarmouth, attempted to kill his wife, on Middle street, last night. She had left him, and said she was going to Boston to get rid of him. Four shots were fired, but none reached their intended mark. Parks was arrested almost immediately, but, even while in irons in the officers' grasp, he attempted to strike the woman. The man had been drinking, and was insanely jealous of his wife.

Dr. Lee Gets Five Years.

New Haven, Oct. 28.—Dr. J. E. Lee, who has been before the courts on three different occasions, was found guilty of malpractice by the superior court yesterday, and sentenced to five years in prison. The jury was out but 15 minutes. The only witness presented by the state was Miss M. Palmer, the alleged victim, and the story told by her was the most revolting in the history of Connecticut.

IN WHEAT MARKET

Justified by the Demand From Europe.

THE KEY TO THE SITUATION HELD HERE.

Farmers and Mechanics of the United states.

London, Oct. 28.—In an interview with Mr. Rush, the editor of Beerbohm's Corn Trade List, the standard authority on the English wheat market, Mr. Rush, who had just left the Corn Exchange, where he had ascertained the views of all the leading men in the trade, said: "This rise in wheat, almost for the first time on record, originated here, not in America. This shows that it could have had nothing to do with any manipulation of the American markets, for political or other purposes. Its cause is that, after several years of abundance, the people now recognize that this year is one of ordinary supply.

"Owing to the previous abundance everybody held aloof from buying, and the stocks ran down. Besides, the Australian crop is pretty certain to be a failure, and there is the extraordinary fact that India has become for the nonce, though to a small extent, an importer. These things caused the recent advance in prices. The trade always goes to extremes to start with. A reaction that has occurred was to be expected, but the cause of the advance remains. The men of the most experience in the London market believe that wheat is going to rule at 35 shillings ($8.75) a quarter. If the Argentine crop fails, there will be excitement in the trade. If it is a fairly abundant crop, it will prevent such excitement. It cannot at best supply us with more than 5,000,000 quarters, which is a bagatelle in the general movement of the world's wheat.

"For the first time in years America now holds the key to the situation. Every bushel of wheat America can spare will be wanted in Europe. At least 20,000,000 quarters (160,000,000 bushels) will be wanted before the season is over. If America could hold back the wheat for a month, it would go up 10 shillings ($2.50) a quarter. But I suppose the American banks do not consider wheat a commodity on which it is safe to give large accommodation, so that the American trade is obliged to send wheat on as fast as it can. We look forward on the whole to an active time, with considerable fluctuations, for the moment trade becomes brisk the speculators will rush in and influence the market."

Philip B. Skelton, secretary of the old Corn Exchange in Mark lane, in an interview yesterday, said, in regard to the recent rise in wheat: "I certainly think the demand genuine and the rise justified. A reaction is probable, but it will be only temporary, and caused by people having stock on hand being induced to rush to sell. A number of cargoes are already on their way to India. Everybody is waiting. The shortage of corn and wheat in India will compel purchases. The fall in price here was in sympathy with the foreign markets. I believe that there will be wheat enough brought to market in the next six months to supply the necessities of the world. The absence of the surplus of former years has stimulated trade. The statements which have been made that there is a manipulation of the market to support the candidacy of Bryan in the United States is absolute nonsense. Indecision is sure to characterize the markets until confirmation is received that India and other countries have no reserve, as upon former occasions, sufficient to feed themselves. This indecision is causing a glut in the European markets and a resurgence of prices."

The Daily Telegraph says of the demand for, and the supply of wheat: This stock of foreign wheat at the principal British ports would not suffice to feed the country for a fortnight. It is the opinion of one of the best known cornfactors in Mark lane that American wheats will speedily rise with a bang, and that by Christmas, prices will be much further enhanced. During the recent excitement, speculation in England and America was carried beyond reasonable bounds. American operations were decidedly intemperate and excessive, but in the market the opinion is positive that at least a proportion of the rise will be retained, and that the area of low prices is for the time ended.

The Evening Standard says that the tendency in wheat is for higher prices, adding: Only the tremendous effort in the United States to hurry wheat across the Atlantic, in exchange for gold, prevented a much greater increase in prices, and when the inrush is past there will be a further rise.

Light-Fingered Colored Girl.

Boston, Oct. 28.—Fannie Ferguson, a pretty mulatto girl, 22 years old, was arrested last night, charged with the larceny of $1000 worth of bric-a-brac and various other articles from residences in the Back Bay. She had been employed as a domestic for the past three years by a number of wealthy people in the Back Bay. Inspectors searched the girl's room, and found two large trunks filled with the finest quality of silk dresses, sheets, pillow cases and other articles. The girl refused to talk in regard to the case.

Life In Tennessee.

Knoxville, Oct. 28.—A special from Coal Creek, the famous rioting mining town, says that at a McKinley and Hobart meeting a negro, named Bud Black, began shooting at another negro, named Frank Martin. They exchanged several shots, and Martin fell, mortally wounded. One of the shots struck and instantly killed Squire Laughlin, a justice of the peace, and one of the leading citizens of the town. Others were hit, but not seriously. Black made his escape.

Manager Out, Editor In.

Habana, Oct. 28.—The manager of La Discussion, Senor Jose Ponce, after handing over to the police the manuscript of the article in that paper which caused the suppression of the sheet, has been set at liberty, and Senor Antonio Escobar, the author of the article, was arrested. Senor Escobar is the editor of La Discussion.

Schweinfurth at Home.

Rockford, Ills., Oct. 28.—George J. Schweinfurth, with his bride, formerly Mrs. Tuttle, her two children, and two other couple from "Heaven," who were married at the same time as the so-called Messiah, at Minneapolis, returned to the city yesterday, after an absence of nearly five months.

LAVIGNE WON

In His Fight With Everhardt For Championship and Big Purse.

New York, Oct. 28.—The Bohemian Sporting club held its first contest of importance last night, when "Kid" Lavigne and Jack Everhardt met in a 25-round bout, at 128 pounds, for a purse of $3500. The price charged for admission—$50, $20 and $10—kept the class of spectators very select. The betting was $1000 to $700 on Lavigne. Both men reported themselves in splendid condition. The contest was advertised as being for the "lightweight championship of the world. The "Kid" had the better of the contest in almost every round, and in the 24th round a right swing on the jaw sent Everhardt reeling, and another straightened him up. A third staggered him, when the referee jumped between them and stopped the bout, awarding the fight to Lavigne, after 1m. 55m. of fighting, in the 24th round.

As It Looks to the Thunderer.

London, Oct. 28.—The Times this morning prints a letter from Moreton Frewen, dated at Chicago, expressing confidence in Bryan's election. He is certain, he says, that McKinley must carry all of seven central states, to avoid being beaten. The Times prints out editorially that their correspondent in New York, who has hitherto maintained that the Republicans are in little danger of defeat, sent a dispatch yesterday, admitting that the situation in Chicago is disquieting. The most serious factor, says The Times, is the prominence which Bryan now gives to the socialist side of his policy. The Times Adds: The victory of those doctrines would be fatal to all confidence. Mr. Bryan's return would be calamatous, not only to America, but to all the civilized world, even though active legislative spoliation might not immediately be possible. We see nothing in the situation to affect our hope that Americans will choose the better party, though we do not look forward with much confidence to the policy of McKinley's government, if he is elected.

REMOVED FROM OFFICE.

Mayor Quincy Relieves Dr. Heath as Commissioner of Public Institutions.

Boston, Oct. 28.—Dr. Alfred B. Heath, commissioner of public institutions, was yesterday removed from office by Mayor Quincy. The mayor also named Ernest C. Marshall as Dr. Heath's successor. It appears that Dr. Heath was asked to resign Tuesday, and declined to accede to the mayor's request. The reason assigned for the removal is the indication of a deficit of $75,000 or more at the close of the current financial year. Dr. Heath was appointed to office by Mayor Curtis, and his term began on May 1, 1895. It would have ended in 1898. The salary is $5000 a year. By a recent act, all the public institutions were consolidated, and Dr. Heath was the first commissioner.

Savage Isn't Worrying.

Alfred, Me., Oct. 28.—County Attorney Emmons and Deputy Sheriff Miles of Saco arrived at the county jail yesterday afternoon, and the Parsonfield murderers were subjected to a rigid questioning. Savage laughs and talks in a manner that shows that he does not realize fully his situation. The jailer yesterday learned something important from one of the prisoners with whom Savage had been talking, and he, with the county attorney, will go to West Parsonfield, for the purpose of ascertaining if their suspicions regarding the matter are well founded.

Crazed by Poverty.

Rochester, Oct. 28.—Mrs. Carrie Whalen of this city murdered her year-old infant yesterday, by throwing him into a raceway. She then attempted suicide by jumping in herself. The babe was drowned. The mother was rescued, taken to the city hospital and will recover. It is thought she had been made insane by poverty.

Bloodhounds on Trail.

Richmond, Mo., Oct. 28.—Mrs. Eva Winner, wife of Jesse Winner, and her two children, a girl, aged 3, and a boy, aged 18 months, were murdered last night. The woman's head was cut with an ax, and the throats of the children were cut and their spinal cord severed. Bloodhounds are being used to track the murderer.

Wreck of the Commercio.

Philadelphia, Oct. 28.—Information has been received by the ships' agents in this city that the barkentine Commercio, from Lisbon, Oct. 3, for Philadelphia, has been totally wrecked near Madeira. The Commercio was built in 1874, in Maine, and was of 478 tons burden.

Jail Was Unguarded.

White Plains, N. Y., Oct. 28.—Peter James, who was arrested for burglary, has escaped from jail. He sawed his way through the bars of his cell, and a carriage, with friends in it, was outside the jail. They carried him away. The police, at the time of the escape, were watching a parade.

WAS MINOR POINT

The Marquis of Lansdowne's View of Schomburgk Line.

CLAIMS OF GREAT BRITAIN SET FORTH.

They Will All be Supported He Says.

London, Oct. 28.—The Marquis of Lansdowne, secretary of state for war, made an address on political issues at Leeds last night. The speaker expressed the belief that the Venezuelan question would be soon dealt with by an arbitrator or by an amicable compromise.

In the course of his address he said that the Indian government felt the gravest fears as to the possible loss of life from famine, and he suggested that the undertaking of irrigation works would do the most good toward relieving the distress.

Referring to the recent statement of Sir Edward Clarke, formerly solicitor general in Lord Salisbury's last government, that no impartial arbiter could decide in favor of Great Britain in the Venezuelan question, the marquis asserted that he was given to understand that Sir Edward only referred to districts beyond the Schomburgk line. This said the marquis, was a minor point, and was open to a wide divergence of opinion; but he assured his hearers that Great Bratain's claim to the territory, as a whole, was not put forward without the most careful consideration.

There was reason to believe, he continued, that a time was approaching when these questions would be dealt with by an arbiter, or by an amicable compromise, under suitable conditions. When the time came, they would go to court, not believing that every point would be given in their favor, but confident that their claims, at any rate, were supported by evidence based on well established principles of international law.

Significant Utterances.

Vienna, Oct. 28.—According to The Pester Lloyd, M. Pobiedonostsiff, chief of the old Russian party, when in Vienna, declared that there could not be any question whatever of a real alliance between France and Russia. "Friendly relations have existed," this Russian statesman is quoted as saying, "nothing more. We returned thanks when the czar left France, as we were in a perpetual state of anxiety. The French cannot be depended upon. Russia is now in the position of a nurse toward France. The Emperor of Germany knows that very well. It is advisable not to attach too much importance to the meeting between the czar and President Faure."

Germany In a Plot.

London, Oct. 28.—A Vienna correspondent of The Daily Mail is assured that one of the imperial yachts is anchored opposite Bectiktache, near Constantinople, closely guarded day and night, and that there is a subterranean passage from the Yildiz Kiosk to the seashore, which is patrolled unceasingly and is kept constantly lighted. Vice Admiral Chakri, commander of the imperial yacht, has been instructed to remain at anchor at Bectiktache until further orders.

Spirit of Retrenchment.

Paris, Oct. 28.—The cabinet has approved the scheme of Dr. Barthou, minister of the interior, for decentralization and for enlarging the powers of the municipal and departmental councils, by dispensing, in certain cases, with the approval of the prefect. The scheme reduces the prefectorial councils from 66 to 18, thus saving 450,000 francs. Four bills embodying this scheme were presented to the chamber today.

Should Be Attended To.

Montreal, Oct. 28.—It has become known that for some two weeks the larger of the two city reservoirs on the mountain has been in a dangerous condition. It holds 18,000,000 gallons of water, and experts say that if a break should occur, the whole city would be washed away. The matter has excited the attention of the authorities.

For a Greater Navy.

London, Oct. 28.—The Daily Mail publishes an interview with H. J. Wickham of the Navy league, Toronto, urging that an auxiliary British navy be gradually established by liberally subsidizing the improved mercantile cruisers, manned and officered by a system of naval reserves, which shall include colonial seamen.

Spanish Mob Got After Them.

Cadiz, Oct. 28.—A number of Cuban prisoners, who were landed here, were escorted from the harbor to the jail by a mob. The Cubans were hissed, and stones were thrown at them, the mob finally becoming so excited that it was with the greatest difficulty that the police landed the prisoners safely in the jail.

All Hands Drowned.

St. Thomas, Ont., Oct. 28.—The government cruiser Petrel has arrived at Port Stanley, with the news that the schooner Sandill, loaded with lumber for Tonawada, from Wiarton, went down in Lake Erie Friday, and all hands were lost. The Sandill carried a crew consisting of captain, mate, three seamen and cook.

Warfare In Africa.

Lisbon, Oct. 28.—A telegram received here from St. Paul De Loanda, Portuguese West Africa, says that the Portuguese expedition has just punished the rebellious Bendo natives, burning 24 of their villages and killing 100 of the rebels.

Small Wheat Average.

London, Oct. 28.—The Times' agricultural returns show that 278,076 acres have been added to the British wheat area this year. Nevertheless the area is yet only 1,734,118 acres, the smallest on record, except in 1895.

Ninety Turks Killed.

Athens, Oct. 28.—At Taxis, a band of Macedonian insurgents has defeated a detachment of Turkish troops, after a long engagement, in which 90 Turks were killed and eight were captured.

Dr. Capen In Financial Straits.

Cambridge, Mass., Oct. 28.—Rev. E. H. Capen, D. D., president of Tufts college, has filed a voluntary petition for insolvency. The causes which led to the assignment do not in any way affect the institution with which he is connected. In order to help personal friends, he had endorsed too large an amount of paper, and property given to him as security was found to be over-estimated in value.

Her Complicated Anger.

Jonks—You say your wife is in a bad humor?

Pennobunker—Yes, she is.

Jonks—What is she cross about?

Pennobunker—In the first place, she got cross at the servant girl, then she got cross at me because I didn't get cross at the servant girl, and now she is cross at herself because she got cross at the servant girl. Do you understand?—Collier's Weekly.

THEATRICAL NEWS.

Music Hall.

The majority of Lowell people have either read or heard of Robert Louis Stevenson's famous novel, "Dr. Jekyll and Mr. Hyde." It was first dramatized by Mr. Richard Mansfield, and since that time the leading actor making the play his leading work is Mr. Charles Leonard Fletcher. So perfect and entertaining is his work, that Mr. Mansfield cheerfully gave him permission to use his repertoire. This is alone a great card. Manager Boody of Music hall is to be congratulated upon securing Mr. Fletcher and his star company to give their great scenic and comedy production of Dr. Jekyll and Mr. Hyde" at Music hall. The company scored another success last night and were liberally applauded by a well filled house.

A Beautiful Production.

Never has a play been presented in Lowell with such perfect detail as "A Scrap of Paper," now being played at the Savoy. During its run at Wallick's theatre, N. Y., the stage never presented such pictures. Lowell is playing in great luck in having such a company and such productions for a steady diet and not only that the public appreciate it, and the houses considering the political times are more than satisfactory. The company next Friday afternoon, Oct. 30, will play "Honor Bound" and the second act of "Babie" at the Highland club at 2.30. The entire company will appear. Next Monday the "Arabian Nights" the three act farce will be presented at the Savoy with Weston as "Humming Top."

CRISP GOSSIP.

When Judge Hadley was talking in police court the other day of the great number of people who carry weapons, he said: "I heard tell of a judge who ordered every one in the court who had any concealed weapons to produce them. In two minutes there were 50 revolvers lying on the clerk's desk.

"Jack" McDonough, the boxer, left today for Rochester, N. Y., where he will arrange for a 15 round contest with "Tommy" Ryan. Rochester people think well of McDonough and the comment in the papers indicates that they are willing to back their good opinion of him with good coin.

On a bill board opposite the North Common is an advertisement containing the pictures of McKinley and Bryan. Some enthusiastic young free silverites have written across McKinley's forehead, "Nit," while on Bryan's shirt front is the inscription, "the people's choice."

It is said of Du Maurier that he even read the proofs of "The Martian" his last story much earlier than seemed necessary, apparently with the premonition that only life enough remained to do his last task quickly.

The story which is commanding wide attention is being run in Harper's magazine.

THE MULE SPINNERS

Resisting Reductions Made For Political Effect.

The Mule Spinners' union had its regular meeting last night with National President Michael Duggan in the chair. The question of reduction in wages of the spinners in other cities was discussed and it was decided to call a meeting of the national executive council to take place not later than Friday morning in order that the result of the meeting may be made known to the members of the union at Friday night's session.

The cities where wages have been decreased are Dover, N. H., Great Falls, N. H., Salmon Falls, N. H., Holyoke, Mass., and Somersworth. The executive council will determine whether or not it is feasible to order a strike and if so to increase the assessment of the members to assist the strikers.

A STANDING MENACE
To Peace and Health Cured by the Standing Remedy in Lowell.
To those whose employment requires constant standing come evils arising from organs unable to stand the years of strain without saying our. The kidneys feel the strain of such occupations sooner and more keenly than any other. Located directly under the small of the back on each side of the spine, they produce backache as it is termed, and of the kind that increases in duration and intensity until life is made wretched. Following close on the heels of backache come urinary troubles and irregularities, not only painful but dangerous and disagreeable beyond measure. Under such conditions do you wonder that many take interest in a subject much written about today, "Is life worth living?" The sick answer, No; the well laugh at the absurdity of the question. Health determines it.
Mrs Mary Traynor residing at 28 Pearl street, Lowell, has stood all day for years as a spooling machine. This brought kidney backache, which later developed by urinary trouble into a worst stage. Health and added weight seemed to return when taking a rest in the country during vacation, only to be rapidly lost again on return to work. Her back ached incessantly, dizziness and headache, and a constant desire to sit down, and torture to rise again. The urine was high colored with reddish deposit and inflammation of membranes. She adds: "I did not know what to do, having doctored without success, and I was discouraged. I heard of Doan's Kidney Pills and although I had little faith in them, I got a box at Ellingwood & Co's, Merrimack and Central streets, and after a few doses I felt very much better, and continuing their use, the backache left me, the stiffness was gone, my head was clear, I have no urinary trouble whatever and I feel like another person.

THE BON MARCHE

Plan of informing the PUBLIC from day to day of the leaders for each day's trade has contributed enormously to the great growth of general trade. Every lady will be interested in what we have to relate today regarding our Glove, Ribbon and Corset flyers for this Wednesday, Thursday, Friday and Saturday trade, and also the kitchen requisites which are marked at prices to suit any pocket book.

GLOVES.

You will find no better glove stock than ours. For what can be better than the best. Our stock is of the best and this doesn't mean that the prices are way up either. For instance:

1 lot button and lacing Kid Gloves, 59c, black and colors.

1 lot Jobber's seconds Foster lacing and 2 clasp Kid Gloves, 75c, worth as high as $1.50. This lot are imperfect Gloves, remade which will in no way impair the wear of the gloves.

The Bon Marche $1.00, $1.25 and $1.50 Kid Dogskin and Antelope Gloves, in lacing, clasp and button, are well known by the ladies of Lowell and vicinity as best assorted lines in the city. We fit and keep in repair gloves at $1.00 pair and over.

Chamois Gloves (the only washable gloves), we keep the two best numbers, 69 and 100. Every pair warranted to wash and wear.

Ladies' Cashmere Gloves. Our usual values prevail in this line. The best the market affords at 19c the pair is here.

Silk mittens in all weights for driving or street wear, embroidered or otherwise, at prices which seem to be less than the price of the material to make them with. We commence them at 50c and run to $1 50.

RIBBONS.

The Bon Marche Ribbon stock calls for more than passing comment. It's a stock to enthuse over. There's been nothing slighted, nothing overlooked that would help to make this the most useful Ribbon Department in this region. Only a few of the many choice bargains get space in this issue. Special values in Moire, Antique, plain and Glace Taffeta Ribbons and Roman Plaids and Stripe Ribbons in the latest shades and combination colorings.
